NXR750 BREEDING FOR RALLY-WINNING POTENTIAL

NXR750 RALLY-WINNING STYLING

The AFRICA TWIN's styling and colouring were taken directly off the PARIS-DAKAR-winning NXR750, giving a hint of victories ahead and continents to be traversed. It was not a direct transplant, however, as the various components not required on the racer but necessary on a production machine had to be blended carefully into the overall design. Functional beauty was given primary importance in the strong, aggressive design, and the result is guaranteed to turn heads on the most crowded city street or deserted wilderness trail.

Highlighting the design is the enormous 24-liter fuel tank integrated into the aerodynamically-designed fairing. The fairing is frame-mounted, and also carries the racer-type instrument panel to reduce steering loads. The integrated front disc cover, fork shroud, and mudguard are also aerodynamically designed to direct cooling air to the large-capacity aluminium radiators.
