ON THE ROAD AGAIN,  
metaphorically  
speaking

Thinking is not the best  
thing that you can do.  
You should think about  
the things that are  
important to you. The  
things that are  
important to you are

the authors are not aware of any other studies that have examined the effects of a single session of a group-based, self-help program on the self-efficacy of people with chronic low back pain. The authors believe that the results of this study may be useful in the development of self-help programs for people with chronic low back pain.

the first time in the history of the world, the world's population is growing so fast that it is expected to reach 10 billion by the year 2050. This is a dramatic increase from the 6 billion people who lived on the planet in 1999. The rapid growth of the world's population is a major concern for many people, as it is expected to place a significant strain on the world's resources and environment. The United Nations estimates that the world's population will grow by 5 billion people in the next 50 years, with the most rapid growth occurring in the developing world. This growth is driven by a combination of factors, including high birth rates, declining death rates, and increasing life expectancy.
