Hello! Welcome back to another exciting school year. The math department has composed this letter to inform you of some changes going on this year in the math program here at Logan-Magnolia. None of our teachers have changed in the department; however, what we are teaching has changed slightly. Mr. Azinger will now teach 8th grade, Algebra Concepts, Geometry Concepts, Problem Solving, and Basic Math. Ms. Lacey will now teach 7th grade, Pre-Algebra and Algebra. Ms. Tentinger will now teach Geometry, Algebra II, Discrete, and Probability and Statistics. Mr. Marsh will continue to teach the following upper level course: College Algebra, Pre-Calculus/Trigonometry, Calculus, and College Physics. We just wanted to introduce ourselves and give you some information regarding the expectations in the high school classes.

*Relentlessly pursuing
educational excellence for the
21st Century*

Starting with the 2012-2013 school year, the High School Math Department and the Administration will be enforcing the prerequisite grade. According to the course descriptions a student must pass each math class with a C- or higher to move to the next level of math. What this means is that your student needs to get a C- in order to continue to the next class. If your student receives an F, they do not get credit and they do not move on to the next course regardless. If your student receives a D+, D, or D- they will receive math credit, BUT they will not be allowed to take the next course in the series. If your student retakes the class because they earned a grade of D-, D, or D+ they will receive an elective credit and not another math credit.

We have adopted a new math series that is based on the Iowa Core Curriculum, which is now the state of Iowa's required math curriculum. If you would like to view the criteria please go to the Iowa Department of Education and search Iowa Core Math Standards. The Iowa Core is intended to help students be able to apply what they have learned outside the classroom. In order for us to tie in the application piece of learning, they need to practice the basics outside of class and that is what the homework is about.

Students will have homework almost every night. Our expectation is they attempt every problem and if they have questions, we prefer they come before or after school to get extra help. We are more than willing to help during class when they are given the time to work on
