**Peter Bulli, Christina Cowger, Marco  
Maccaferri, Feng Chen, Morten Lillemo**

## **Kenyan Universities September 2015 Intake:**

**The Refugee Crisis and Religion** Luca Mavelli, Erin Wilson, 2016-12-01 The current refugee crisis sweeping Europe and much of the world closely intersects with largely neglected questions of religion Moving beyond discussions of religious differences what can we learn about the interaction between religion and migration Do faith based organisations play a role within the refugee regime How do religious traditions and perspectives challenge and inform current practices and policies towards refugees This volume gathers together expertise from academics and practitioners as well as migrant voices in order to investigate these interconnections It shows that reconsidering our understanding and approaches to both could generate creative alternative responses to the growing global migration crisis Beginning with a discussion of the secular religious divide and how it shapes dominant policy practices and counter approaches to displacement and migration the book then goes on to explore and deconstruct the dominant discourse of the Muslim refugee as a threat to the secular Christian West The discussion continues with an exploration of Christian and Islamic traditions of hospitality showing how they challenge current practices of securitization of migration and concludes with an investigation of the largely unexplored relation between gender religion and migration Bringing together leading and emerging voices from across academia and practice in the fields of International Relations migration studies philosophy religious studies and gender studies this volume offers a unique take on one of the most pressing global problems of our time Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 Negotiating Identities in Contemporary Africa Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa **Thus Until** Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the

colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

Regional Review on Status and Trends in Aquaculture Development in Sub-Saharan Africa - 2015 Food and Agriculture Organization of the United Nations,2017 The present regional review and synthesis for sub Saharan Africa SSA provides an overview of major issues and trends in the aquaculture sector between 2004 and 2014 with emphasis on outstanding issues over the last five years The regional review reflects development in 41 countries in SSA for which production was reported to FAO in 2014 The production volume and value data have been derived from the latest FAO global aquaculture dataset 1950 2014 FishStat

*Kenya's Running Women* Michelle M Sikes,2023-12-01 Since Pauline Konga s breakthrough performance at the 1996 summer Olympics in Atlanta the world has become accustomed to seeing Kenyan women medal at major championships sweep marathons and set world records Yet little is known about the pioneer generation of women who paved the way for Kenya s reputation as an international powerhouse in women s track and field In *Kenya s Running Women* A History historian and former professional runner Michelle M Sikes details the triumphs and many challenges these women faced from the advent of Kenya s athletics program in the colonial era through the professionalization of running in the 1980s and 1990s Sikes reveals how over time running became a vehicle for Kenyan women to expand the boundaries of acceptable female behavior Kenya s Running Women demonstrates the necessity of including women in histories of African sport and of incorporating sport into studies of African gender and nation building

*UNESCO Science Report* UNESCO,2021-06-18

Africa regional overview of food security and nutrition 2020 Food and Agriculture Organization of the United Nations,United Nations Economic Commission for Africa,African Union Commission,2021-06-29 Africa is not on track to meeting the Sustainable Development Goal SDG 2 targets to end hunger and ensure access by all people to safe nutritious and sufficient food all year round and to end all forms of malnutrition The number of hungry people on the continent has risen by 47.9 million since 2014 and now stands at 250.3 million or nearly one fifth of the population The 2017 2018 and 2019 editions of this report explain that this gradual deterioration of food security was due to conflict weather extremes and economic slowdowns and downturns often overlapping A continued worsening of food security is expected also for 2020 as a result of the COVID 19 pandemic In addition to hunger across all countries in Africa millions of people suffer from widespread micronutrient deficiencies and overweight and obesity are emerging as significant health concerns in many countries This report shows that the food system in Africa does not provide food at a cost that makes nutritious food affordable to a majority of the population and this is

reflected in the high disease burden associated with maternal and child malnutrition high body mass micronutrient deficiencies and dietary risk factors The report also shows that current food consumption patterns impose high health and environmental costs which are not reflected in food prices The findings presented in this report highlight the importance of prioritizing the transformation of food systems to ensure access to affordable and healthy diets for all produced in a sustainable manner

**2016 THE STATE OF WORLD FISHERIES AND AQUACULTURE** Food and Agriculture Organization of the United Nations,2018-04-17 This issue of The State of World Fisheries and Aquaculture aims to provide objective reliable and up to date data and information to a wide range of readers policy makers managers scientists stakeholders and indeed all those interested in the fisheries and aquaculture sector As always the scope is global and the topics many and varied This edition uses the latest official statistics on fisheries and aquaculture to present a global analysis of trends in fish stocks production processing utilization trade and consumption It also reports on the status of the world's fishing fleets and analyses the make up of human engagement in the sector Twenty years on from the introduction of the Code of Conduct for Responsible Conduct and now with the recently adopted Sustainable Development Goals 2030 Agenda for Sustainable Development Paris Agreement and the Small Scale Fisheries Guidelines the focus on governance and policy has never been greater This edition covers recent developments as they relate to fisheries and aquaculture and reports inter alia on the Common Oceans ABNJ Program FAO's Blue Growth Initiative and efforts to combat illegal unreported and unregulated fishing It also discusses issues such as valuing inland fisheries cutting bycatch and promoting decent work Other topics highlighted include nutrition aquatic invasive alien species responsible inland fisheries resilience in fisheries and aquaculture and governance of tenure and user rights

Supporting Entrepreneurship and Innovation Janet Crum,Samantha Schmehl Hines,2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions

Psychiatric Contours Nancy Rose Hunt,Hubertus Büschel,2024-03-08 Psychiatric Contours investigates new histories of psychiatry derangement and agitated subjectivities in colonial and decolonizing Africa

Fostering Pedagogy Through Micro and Adaptive Learning in Higher Education: Trends, Tools, and Applications Queirós, Ricardo,Cruz, Mario,Pinto, Carla,Mascarenhas, Daniela,2023-08-14 Fostering Pedagogy Through Micro and Adaptive Learning in Higher Education Trends Tools and Applications is a timely and groundbreaking book that addresses the challenges of engaging the digital generations in the teaching learning process intensified by the pandemic Written by Ricardo Queirós a renowned researcher in e learning interoperability and programming languages the book offers a unique perspective on using micro and adaptive learning approaches to create immersive and personalized environments that cater to the learning styles and paces of diverse students The book covers innovative trends tools and applications that enable

educators to implement pedagogical practices that enhance the teaching learning experience It explores topics such as artificial intelligence in education adaptive hypermedia differentiated instruction and micro gamification design providing readers with practical tools to create personalized and immersive learning environments This book is a valuable resource for professors of any domain practitioners and students pursuing education as well as research scholars looking to expand their understanding of e learning and pedagogical innovation It is a must read for anyone interested in the future of education and how digital technologies can be leveraged to create engaging and immersive learning environments

**Rhinos of the World** Mario Melletti,Bibhab Talukdar,David Balfour,2025-02-20 This book represents the culmination of more than four years of work by many rhino experts primarily from Africa Asia the United States and Europe involved in rhino conservation research and management It is one of the most comprehensive reference works ever published on the systematics ecology conservation status and management of all rhinoceros species Covering all five rhino species worldwide this volume brings together the contributions of 92 international rhino experts and provides A comprehensive overview of the current state of knowledge on the evolution phylogeny systematics and fossil record of rhinos An in depth look at the ecology and conservation status of each species with detailed chapters A series of case studies on conservation management poaching horn trade and ex situ programs This beautifully illustrated book is an invaluable resource for researchers wildlife managers and professionals in conservation biology ecology and management as well as the general public It reveals the fascinating story of rhino evolution the long history of human interactions with rhinos and the major threats to these iconic species

*Advances in Breeding for Wheat Disease Resistance* Peter Bulli,Christina Cowger,Marco Maccaferri,Feng Chen,Morten Lillemo,2022-11-03 *Roots of Power* Michael Sheridan,2023-04-21 *Roots of Power* tells five stories of plants people property politics peace and protection in tropical societies In Cameroon French Polynesia Papua New Guinea St Vincent and Tanzania dracaena and cordyline plants are simultaneously property rights institutions markers of social organization and expressions of life force and vitality In addition to their localized roles in forming landscapes and societies these plants mark multiple boundaries and demonstrate deep historical connections across much of the planet s tropics These plants deep roots in society and culture have made them the routes through which postcolonial agrarian societies have negotiated both social and cultural continuity and change This book is a multi sited ethnographic political ecology of ethnobotanical institutions It uses five parallel case studies to investigate the central phenomenon of boundary plants and establish the linkages among the case studies via both ancient and relatively recent demographic transformations such as the Bantu expansion across tropical Africa the Austronesian expansion into the Pacific and the colonial system of plantation slavery in the Black Atlantic Each case study is a social ecological system with distinctive characteristics stemming from the ways that power is organized by kinship and gender social ranking or racialized capitalism This book contributes to the literature on property rights institutions and land management by arguing that tropical boundary plants social entanglements and cultural legitimacy

make them effective foundations for development policy Formal recognition of these institutions could reduce contradiction conflict and ambiguity between resource managers and states in postcolonial societies and contribute to sustainable livelihoods and landscapes This book will appeal to scholars and students of environmental anthropology political ecology ethnobotany landscape studies colonial history and development studies and readers will benefit from its demonstration of the comparative method

GM maize in Ethiopia: An ex ante economic assessment of TELA, a drought tolerant and insect resistant maize Yirga, Chilot, Nin-Pratt, Alejandro, Zambrano, Patricia, Wood-Sichra, Ulrike, Habte, Endeshaw, Kato, Edward, Komen, John, Falck-Zepeda, José Benjamin, Chambers, Judith A., 2020-05-07 Ethiopian economy has grown at an average rate that surpasses that of almost any other economy in the region over the last two decades At the center of this development is the high priority placed on accelerating agricultural growth and achieving food security and poverty alleviation Over the years maize has become a main food security crop widely produced and consumed by smallholder farmers second only to teff in terms of area Despite the sustained growth of maize production over the years its yields continue to be lower than the world's average Of the many abiotic and biotic constraints that maize faces insect attacks and droughts are two critical ones The genetically modified TELA maize can help address these constraints This paper estimates the economic benefits of adopting this new technology and the opportunity cost that Ethiopia will incur if its adoption is delayed The analysis is conducted using an economic surplus partial equilibrium model run with the newly developed DREAMpy software data drawn from the Ethiopia Socioeconomic Survey Wave 3 2015 2016 econometric estimations using these survey data and other local data and sources The estimations show that if the drought tolerant and insect resistant TELA maize is planted in 2023 the net present value of benefits for producers and consumers would be around 850 million Producers from the mid altitude maize zone will be the main beneficiaries given the targeted area of TELA maize Consumers from all areas will benefit from the projected reduction in price If the adoption of this new technology is delayed by 5 years the estimated net present value of benefits will fall by 30 percent These costs underscore the importance of having a regulatory system that is efficient predictable and transparent and ensures that the projected economic benefits are realized

**Changing Dietary Patterns, Indigenous Foods, and Wild Foods** Kumiko Sakamoto, Lilian Daniel Kaale, Reiko Ohmori, Tamahi Kato (Yamauchi), 2023-08-30 This book presents different dietary patterns some utilizing wild foods and others facing drastically changing dietary patterns and shows their implications for health in terms of wealth mutual assistance food sufficiency and food diversity The book examines these globally important issues through a case study of Tanzania Using a novel methodology based on a global standard quality of life indicator the book sheds light on the relationship between wild food intake and health in Tanzania Descriptive case studies illustrate the impact of various food patterns and wild food intake on human health It also highlights the divergence between food production sufficiency and food diversity It then discusses the influence of wealth mutual relations and methods of food access Finally the book concludes

with recommendations for maintaining good health in various environments The intended readers of this book are academics and professionals in the fields of development nutrition and environment in East Africa These include but are not limited to regional and district personnel who are actively engaged in development relevant ministries of food and agriculture and international organizations such as FAO UNICEF UNDP and UNEP In the academic field students and researchers in international studies development studies African studies social studies cultural studies nutrition agriculture and environmental studies are targeted This book won the 2024 Japan Society for International Development Committee Special Award

**Improving household consumption and expenditure surveys' food consumption metrics** Fiedler, John L., Mwangi, Dena M., 2016-11-18 As the nature of global malnutrition changes there is a growing need and increasing urgency for more and better information about food consumption and dietary patterns The past two decades have seen a dramatic increase in the number availability and analysis of the food consumption data collected in a variety of multipurpose household surveys referred to collectively as household consumption and expenditure surveys HCESs These surveys are heterogeneous and their quality varies substantially by country Still they share some common shortcomings in their measurement of food consumption nutrient intakes and nutrition status that undermine their relevance and reliability for purposes of designing and implementing food policies and programs This review crafts a strategic approach to the unfinished global agenda of improving HCESs collection of food consumption data Starting with the priority studies recommended by a 100 country HCES review Smith Dupriez and Troubat 2014 it focuses on a strategic subset of those studies that deal most directly and exclusively with the measurement of food and that are of fundamental importance to all HCES stakeholders in low and middle income countries Drawing from the literature this study provides a more detailed more circumspect justification as to why these particular studies are needed while identifying key hypotheses explaining why these studies are of growing urgency and demonstrating why now is a propitious time for undertaking them The review also identifies important study design considerations while pointing out potential challenges to successful implementation stemming from technical capacity economic administrative and political considerations Six key studies are rank ordered from a global perspective as follows taking into account 1 the likely shared consensus that a topic is an important source of measurement error in estimating consumption 2 the perceived urgency of the need for addressing a particular source of measurement error 3 the perceived likelihood of success that is that the efforts will improve the accuracy of measurement 4 whether or not the study entails modifying the questionnaire 5 the ease with which a study may begin and 6 the extent to which the study is independent of necessary negotiations with existing HCES stakeholders because of the types of changes it is likely to entail in either the questionnaire or the way the data have traditionally been processed

*School Farms* Alshimaa Aboelmakarem Farag, Samaa Badawi, Gurbinder Lalli, Maya Kamareddine, 2021-11-28 This book highlights the potential of school farms to fight hunger and malnutrition by providing access to locally produced fresh and healthy food as well as providing young

students with educational opportunities to learn interact with nature and develop their skills Hunger is one of the most pressing concerns we face today and there is a clear need to provide alternative sources of food to feed a fast growing population School farms offer a sustainable opportunity to produce food locally in order to feed underprivileged students who rely on school meals as an integral part of their daily diet Approaching the concept of school farms through four themes Problem People Process and Place the book shows how they can play an essential role in providing sustainable and healthy food for students the critical role educational institutions can play in promoting this process and the positive impact hands on farming can have on students mental and physical wellbeing Utilizing the authors personal hands on experiences and drawing on global case studies the book provides a theoretical framework and practical guidance to help with the establishment of school farms and community based gardening projects and an education system which promotes a sustainable and healthy approach to food agriculture and the environment This book will be essential reading for students and scholars of food security agriculture healthy and sustainable diets education for sustainable development and urban studies It will also be of great interest to practitioners and policymakers involved in food policy developing school and community projects global health and international development as well as education professionals *The Routledge Handbook of Architecture, Urban Space and Politics, Volume II* Nikolina Bobic, Farzaneh Haghighi, 2024-11-22 Architecture and the urban are connected to challenges around violence security race and ideology spectacle and data The first volume of this handbook extensively explored these oppressive roles This second volume illustrates that escaping the corporatized and bureaucratized orders of power techno managerial and consumer oriented capitalist economic models is more urgent and necessary than ever before Herein lies the political role of architecture and urban space including the ways through which they can be transformed and alternative political realities constituted The volume explores the methods and spatial practices required to activate the political dimension and the possibility for alternative practices to operate in the existing oppressive systems while not being swallowed by these structures Fostering new political consciousness is explored in terms of the following themes Events and Dissidence Biopolitics Ethics and Desire Climate and Ecology Urban Commons and Social Participation Marginalities and Postcolonialism Volume II embraces engagement across disciplines and offers a wide range of projects and critical analyses across the so called Global North and South This multidisciplinary collection of 36 chapters provides the reader with an extensive resource of case studies and ways of thinking for architecture and urban space to become more emancipatory Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license *Higher Education and Sustainability* Ulisses Manuel de Miranda Azeiteiro, J. Paulo Davim, 2019-08-30 The book provides descriptions of experiences from research and educational sustainability projects and the role HEIs can play together with contributions presenting a variety of initiatives showing how SDGs are being implemented The book promotes the theoretical and practical understanding on this thematic

and disseminates knowledge and international research and cooperation Contributions cover the role of SDGs in advancing implementation of sustainable development sustainability in higher education the role of universities in sustainable development new paths towards sustainable development and e learning contributions Features Focuses on theoretical and practical understanding on Sustainability Higher Education and SDGs to disseminate knowledge and promote research and cooperation Includes lessons learned from sustainability research and educational challenges presenting case studies technological developments outputs of research and studies best practices and examples of successful projects Discusses relevant and international perspectives on sustainability higher education and SDGs Presents local and international contributions on a variety of initiatives showing how SDGs are being implemented
