The Responsibility to Protect and the International Criminal Court Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect R2P and the International Criminal Court ICC were applied in Kenya In the aftermath of the disputed presidential election on 27 December 2007 Kenya descended into its worst crisis since independence The 2007/08 post election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute Despite efforts to ensure compatibility between R2P and the ICC the two were far from coherent in this case as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators This book will highlight how the African Union sponsored mediation process effectively brought an end to eight weeks of bloodshed while simultaneously entrenching those involved in orchestrating the violence Having secured positions of power politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels eventually leading the cases against them to unravel As this book will reveal by utilising the machinery of the state as a shield against prosecution the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract This book will be of interest to students of the Responsibility to Protect humanitarian intervention African politics war and conflict studies and IR Security Studies in general

Extremisms in Africa Volume 2 Alain Tschudin, Craig Moffat, Stephen Buchanan-Clarke, Susan Russell, Lloyd Coutts, 2019-06-18 Over the past two decades the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa's most enduring conflicts Moreover the inability of African states to contain the threat of extremism or of heavy handed security responses has led to the loss of thousands of lives displaced millions and deeply impacted the continent's democratisation and development goals This is the second anthology published by Good Governance Africa GGA on the topic of extremism and political violence in Africa Extremisms in Africa one of the first anthologies of its kind on this topic to be authored and published on the African continent provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges enabling them to exploit the grievances of individuals and communities for their cause This anthology Extremisms in Africa Volume 2 looks forward giving special attention to the ways in which emergent trends global geopolitics and conflict dynamics merge to impact upon the African continent To this end we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration the implications of such human movement for modern day trafficking and slavery and the roles of women and youth State responses to extremism on the African continent are not uniform the capacity of individual states to detect identify police investigate and prosecute is highly variable At the most fundamental level extremism is ripe to arise in contexts where governments are

failing especially when democracy is on the wane This anthology identifies some of the most pressing challenges in addressing extremism today and provides chapters that could offer actionable policy insights to governments and civil society Given the nature of Africa's geopolitical landscape state and security services alone cannot prevent extremism It will take a whole of society approach where government civil society academia communities families and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context specific strategies in response This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism while also being of interest to the general reader

Literature and

Human Rights Ian Ward, 2015-03-10 The idea of human rights is not new But the importance of taking rights seriously has never been more urgent The eighteen essays which comprise Literature and Human Rights are written as a contribution to this vital debate Each moreover is written in the spirit of interdisciplinarity reaching across the myriad constitutive disciplines of law literature and the humanities in order to present an array of alternative perspectives on the nature and meaning of human rights in the modern world The taking of human rights seriously it will be suggested depends just as much on taking seriously the idea of the human as it does the idea of rights

Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs
