Solomon, 2020-06-11 This timely 2 volume edited collection looks at the extent and nature of global jihad focusing on the often exoticised hinterlands of jihad beyond the traditionally viewed Middle Eastern centre As ISIS loses its footing in Syria and Iraq and al Qaeda regroups this comprehensive account will be a key work in the on going battle to better understand the dynamics of the jihad's global reality Critically examining the global reach of the jihad in these peripheries has the potential to tell us much about patterns of both local mobilisation and local rejection of a grander centrally themed and

administered jihad Has the periphery been receptive to an exported jihad from the centre or does the local rooted cosmopolitanism of the jihad in the periphery suggest a more complex glocal relationship These questions and challenges are more pertinent than ever as the likes of ISIS and many commentators attempt to globally rebrand the jihad and as the centre reasserts its claims to the exotic periphery Edited by Tom Smith Portsmouth Kirsten E Schulze LSE and Hussein Solomon UFS the two volumes critically examine the various claims of connections between jihadist terrorism in the periphery remote Islamist insurgencies of the periphery and the global jihad Each volume draws on experts in each of the geographies in question The global nature of the jihad is too often taken for granted yet the extent of the glocal connections deserve focused investigation Without such inquiry we risk a reductive understanding of the global jihad further fostering Orientalist and Eurocentric attitudes towards local conflicts and remote violence in the periphery This book will therefore draw attention to those who overlook and undermine the distinct and rich particularities of the often contradictory and cosmopolitan global jihad In many of the peripheries particularly those with intensive large scale insurgencies there is extensive international military alliance The Bush doctrine to fight them over there so we don't have to fight them over here certainly looks to be alive and well in places like Somalia the Philippines and Niger amongst many others Crucially we must ask is such reasoning sound is the threat global and if so in what way Furthermore is action in the peripheries under the guise of combating the global jihad overlooking the local issues and threatening to make a wider threat where it was otherwise contained

Diagnosing nations or regions as breeding grounds or sanctuaries of global jihad carries the spectre of having to choose sides in a battle of civilisations which looms over a number of developing nations reliant on good western relations **Sanatana Dharma and Plantation Hinduism (Second Edition Volume 1)** Ramesh Gampat, 2020-01-06 Christian Missionaries worked hard to convert immigrants Their first order of business was to denigrate Hinduism designate Hindus as heathen and disparage their culture food and even attire Immigrants stubbornly resisted led by the tiny educated elite including Brahmins whom we call Brahmins Conversion was a failure at least up to the end of the 19th century but picked up a self generating momentum thereafter The result is that the share of Hindus in Guyana's Indian population declined from 83.5 percent in 1880 to 62.8 percent in 2012 The largest portion of the contraction was lost to Christianity The loss notwithstanding even a casual observer would conclude that Guyanese Hindus at home and in the Diaspora are a very religious people Many of us do a jhandi or havan once annually others do the more elaborate and costlier yajna where everyone is welcome once or twice in their lifetime Most of us do a short daily puja prayers offerings reading the shstras and listening to bhajan in our homes An important but perhaps unintended way immigrants countered conversion to Christianity was an unplanned movement towards a synthesis that brought Hindus regardless of caste or sect under a unitary form of Hinduism The synthesis began around the 1870s and was completed by the 1930s to the 1950s Guyanese Hindus call the unified corpus of religious beliefs and practices that emerged from the synthesis Sanatana Dharma Ramesh Gampat labels it Plantation Hinduism in this path

breaking book The book argues that the brand of Hinduism practiced is inconsistent with Sanatana Dharma called Vednta by the more philosophically inclined Plantation Hinduism features an extraordinary dependence upon purohits pandits which has anaesthetized the Hindu mind and render him unable to think question and inquire when it comes to Dharma Rituals and bhakti have been degraded and turned into desire motivated worship devats have been misconstrued as Brahman rather than as limited manifestation of the one non dual pure Consciousness belief in the multiplicity of gods encourages image worship and superstitions anchor Guyanese Hindus to tradition and mere belief Plantation Hinduism is little more than desire motivated actions dogmas and superstitions Absent is the idea that Sanatana Dharma is a spiritual science no less scientific than hard sciences such as physics and astronomy The central message of Vednta is the innate divinity of every person and the freedom to realize that divinity through anubhava direct personal experience of Supreme Reality

African Cinema in a Global Age Kenneth W. Harrow, 2023-09-19 This book traces the developments in African films that were made from the 1990s to the present within the evolving frame of what came to be called World Cinema and eventually Global Cinema Kenneth W Harrow explores how from the time video and then digital technologies were introduced in the 1990s and then again when streaming platforms assumed major roles in producing and distributing film between the 2010s and 2020s African cinema underwent enormous changes He highlights how the introduction of the continent s first successful commercial cinema Nollywood shifted the focus from engag films with social or political messages to entertainment movies but also auteur cinema Harrow explores how this transformation liberated African filmmakers and resulted in an incredible enduring flow of creative inventive and thoughtful filmmaking This book presents a number of those critical films that mark that trajectory projecting a new sense of African film spaces and temporalities while also highlighting how African films continue to find independent pathways This book will be of interest to students and scholars of African cinema and world cinema as well as researchers specifically examining African cinemas and their relationship to globalization

Sanatana Dharma and Plantation Hinduism (Second Edition Volume 2) Ramesh Gampat, 2020-01-06 Christian Missionaries worked hard to convert immigrants Their first order of business was to denigrate Hinduism designate Hindus as heathen and disparage their culture food and even attire Immigrants stubbornly resisted led by the tiny educated elite including Brhmaas whom we call Brahmins Conversion was a failure at least up to the end of the 19th century but picked up a self generating momentum thereafter The result is that the share of Hindus in Guyana s Indian population declined from 83.5 percent in 1880 to 62.8 percent in 2012 The largest portion of the contraction was lost to Christianity The loss notwithstanding even a casual observer would conclude that Guyanese Hindus at home and in the Diaspora are a very religious people Many of us do a jhandi or havan once annually others do the more elaborate and costlier yaj a where everyone is welcome once or twice in their lifetime Most of us do a short daily puja prayers offerings reading the stras and listening to bhajan in our homes An important but perhaps unintended way immigrants countered conversion to Christianity was an unplanned movement

towards a synthesis that brought Hindus regardless of caste or sect under a unitary form of Hinduism The synthesis began around the 1870s and was completed by the 1930s to the 1950s Guyanese Hindus call the unified corpus of religious beliefs and practices that emerged from the synthesis Sanatana Dharma Ramesh Gampat labels it Plantation Hinduism in this path breaking book The book argues that the brand of Hinduism practiced is inconsistent with Sanatana Dharma called Vednta by the more philosophically inclined Plantation Hinduism features an extraordinary dependence upon purohiths pandits which has anaesthetized the Hindu mind and render him unable to think question and inquire when it comes to Dharma Rituals and bhakti have been degraded and turned into desire motivated worship devats have been misconstrued as Brahman rather than as limited manifestation of the one non dual pure Consciousness belief in the multiplicity of gods encourages image worship and superstitions anchor Guyanese Hindus to tradition and mere belief Plantation Hinduism is little more than desire motivated actions dogmas and superstitions Absent is the idea that Sanatana Dharma is a spiritual science no less scientific than hard sciences such as physics and astronomy The central message of Vednta is the innate divinity of every person and the freedom to realize that divinity through anubhava direct personal experience of Supreme Reality **The Palgrave**

Handbook of Religion, Peacebuilding, and Development in Africa Susan M. Kilonzo,Ezra Chitando,Joram Tarusarira,2023-10-17 This Handbook explores the ways in which religion among the African people has been applied in situations of conflict and violence to contribute to sustainable peace and development It analyzes how peacebuilding inspired and enabled by religion serves as the foundation for sustainable development in Africa while also acknowledging that religion can also be a tool of destruction and can be used to fuel violence and underdevelopment Contributors to this volume offer theoretical discussions from existing literature as well as experiences of practitioners to deepen the readers understanding on the role of religion and religious institutions in peacebuilding and development in Africa The Handbook provides reflections on possible future developments as well thereby aligning with the goals of SDG 16 Report India. Ministry of External Affairs,2015 Proceedings of the 10th Focus Conference (TFC 2023) Manyane Makua,Mariam Akinlolu,Mashango Sithole,Phiwayinkosi Gumede,Cebo Nyondo,Ntombikhona Khuzwayo,Mandlenkosi Mhlongo,2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to

existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education s role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent *DIY Urbanism in Africa* Stephen Marr,Patience Mususa,2023-11-02 Protracted economic crises accelerating inequalities and increased resource scarcity present significant challenges for the majority of Africa s urban population Limited state capacity and widespread infrastructure deficiencies common in cities across the continent often require residents to draw on their own resources knowledge and expertise to resolve these life and livelihood dilemmas *DIY Urbanism in Africa* investigates these practices It develops a theoretical framework through which to analyze them and it presents a series of case studies to demonstrate how residents invent new DIY tactics and strategies in response to security place making or economic problems This book offers a timely critical intervention into literatures on urban development and politics in Africa It is valuable to students policymakers and urban practitioners keen to understand the mechanisms and political implications of widespread dynamics now shaping Africa s expanding urban environments *Black 1968* Timothy H. Parsons,2025-02-25 Initially the 1960s was a time of understandable optimism The civil rights movement and the legislation it inspired suggested an end to institutionalized racism in the United States while in the Global South the emergence of independent states anticipated political liberation and increased prosperity So when racial discrimination entrenched privilege cold war politics and fiscal reality dashed these hopes later in the decade the world experienced a wave of protests Conventional narratives of 1968 focus on student strikes revolutions and coups assassinations and the reactionary backlash that they inspired The chapters of *Black 1968* reveal the imperfectly documented and heretofore unrecognized bonds that led peoples of African descent around the world to articulate new global conceptions of Blackness as a way to mount local challenges to racism segregation colonialism economic exploitation generational authority and cultural chauvinism This book will be of interest to general readers interested in the global 1968 as well as scholars of Blackness and global history *Servanthood of Song* Stanley R. McDaniel,2024-05-23 *Servanthood of Song* is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class *Servanthood of Song* provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training

appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today

Responding to Mass Atrocities in Africa Raymond Kwun-Sun Lau, 2021-12-14 This book explores the relationship between the Responsibility to Protect R2P and the International Criminal Court ICC challenging the assumption that they are always mutually reinforcing or complementary and examining instead the many tensions which arise between the immediate imperative of saving lives and the more long term prospect of punishing perpetrators and preventing future conflicts through deterrence Around the world audiences in the mid 1990s watched the mass atrocities unfolding in Rwanda and Srebrenica in horror and disbelief Emerging from these disasters came an international commitment to safeguard and protect vulnerable communities as laid out in the R2P principle and an international responsibility to punish perpetrators with the establishment of the ICC The book provides context independent proposals for resolving contradictions between the two principles suggesting that focusing on timing and sequencing in invoking international R2P and ICC actions could facilitate the easing of tensions Drawing on examples from Uganda Kenya and Darfur the book applies International Relations concepts and theories in order to deepen our understanding of international responses to mass atrocities Ultimately the book concludes that a Protection First Justice Later sequence approach is necessary for managing the tension and facilitating more effective and consistent international responses This book makes an important contribution to discussions and debates surrounding international responses to genocide and mass atrocities It will be of special interest to scholars students and policymakers in International Relations Global Governance African Studies International Development Human Rights and International Criminal Law
