Transforming Public Education in Africa, the Caribbean, and the Middle East Cynthia S Sunal, Kagendo Mutua, Oluseyi Matthew Odebiyi, 2019-05-01 Public education has expanded to serve large populations across the regions of Africa the Caribbean and the Middle East Many nations in these regions are moving into a phase of public education in which a variety of factors are being identified as influencing the quality of public education and its ability to serve all children and adolescents It has become evident that ethnic background gender religious affiliation and ability/disability are important factors in who is served and how well the individual is served The chapters in this volume **Book 8 of Research on Education in Africa the Caribbean and the Middle East** document and describe the status

success and limitations of public education's efforts at transformation. They provide points from which further research and practice might occur.

Evaluating Social Media Marketing Katarzyna Sanak-Kosmowska, 2021-11-24 This book is an innovative attempt to identify and analyse the processes related to social influence in online buying behaviour with special attention given to the phenomenon of social proof which is the basis of social media recommendation marketing and word of mouth WOM marketing. It empirically verifies the factors which influence the effectiveness of social proof and identifies relevant impact factors. Opening with a literature review of this concept from the perspective of social psychology, sociology and marketing, this interdisciplinary approach to the issue allows for an in-depth understanding of the mechanisms of the effective use of social proof in contemporary online marketing. Following this in the context of theoretical considerations, the author analyses the social role and significance of social proof in the buying behaviours of online consumers. The second half of the book presents the results of the author's quantitative and qualitative research into the effectiveness of social proof. The quantitative research verifies the hypotheses concerning the social role and significance of social proof in buying decisions and identifies the level of confidence in the opinions expressed by other web users. The qualitative research focuses on the empirical verification of the effectiveness of social proof mechanisms. Additionally, attention is given to sensitivity to social proof, i.e. the factors that increase the effectiveness of such messages from both the sender's and the recipient's perspective as well as the forms and channels of communication. Written for scholars and researchers interested in the debate on the transparency of activities carried out by companies in the area of online marketing, the book's detailed analysis of influence, utilizing both quantitative and qualitative studies, may be of interest to a wider group of academics including economists, psychologists and sociologists.

Adult Learning and Education Kjell Rubenson, 2011-02-17 A collection of 46 articles from the diverse and still emerging field of adult education.

Developing Effective Educational Experiences through Learning Analytics Anderson, Mark, Gavan, Collette, 2016-04-07 The quality of students' learning experiences is a critical concern for all higher education institutions. With the assistance of modern technological advances, educational establishments have the capability to better understand the strengths and weaknesses of their learning programs. *Developing Effective Educational Experiences through Learning Analytics* is a pivotal reference source that focuses on the adoption of data mining and analysis techniques in academic institutions, examining how this collected information is utilized to improve the outcome of student learning. Highlighting the relevance of data analytics to current educational practices, this book is ideally designed for researchers, practitioners and professionals actively involved in higher education settings.
