The Venus Collection Pamela Sargent, 2018-06-05 The Nebula Award winning author's masterful SF trilogy is a multigenerational epic of human colonists terraforming the second planet from the sun Publishers Weekly Often compared to Kim Stanley Robinson's acclaimed Mars trilogy the three novels gathered here comprise the complete Venus saga by the author of The Shore of Women one of the genre's best writers The Washington Post The Venus Project making the planet's atmosphere habitable for humans spans centuries and determines the fates of multiple generations Venus of Dreams Iris

Angharad, a determined independent woman, sets herself one massive goal: to make the poison-filled atmosphere of Venus hospitable to humans. She works day and night to realize her dream, with only one person sharing her passion: Liang Chen. It seems impossible to make Venus, with its intolerable air and waterless environment, into a paradise, but Iris succeeds. And in doing so, she also creates a powerful dynasty, beginning with her first-born, Benzi Liangharad. Venus of Shadows: The Venus Project calls upon the strongest and most courageous to create a prosperous world in the dismal wilderness of Venus. Those who demonstrate the skill and passion to embark on this adventure must transform the barren planet in the midst of political and cultural unrest. When Risa and Benzi, children of Iris, find themselves in opposing forces on the battlefield, it is their love and perseverance that will determine the destiny of the new world. Child of Venus: Mahala Liangharad, a true child of Venus, conceived from the genetic material of the rebels and brought to birth only after their deaths, is seen as a beacon of hope in a colony still ravaged by the aftereffects of civil war. But her world is being torn apart by a drive for independence from Earth by the Venus colonists and rumors of a secret plan developed by the Habbers, cybernetically enhanced human dwellers of a mobile asteroid. A mysterious call from deep space offers Mahala a chance to fulfill her own destiny along with the terrifying possibility of losing touch with everything she has ever known and loved.

Making it as a Teacher Victoria Hewett, 2019-05-10. Teaching is a delightfully rewarding, wonderfully enlightening, and diverse career. Yet at present, teacher recruitment and retention are in crisis, with some of the most at risk of leaving the profession being those in their early years of teaching. *Making it as a Teacher* offers a variety of tips, anecdotes, real-life examples, and practical advice to help new teachers survive and thrive through the first 5 years of teaching, from the first-hand experiences of a teacher and middle leader. Divided into thematic sections, *Making It Surviving and Thriving*, the book explores the issues and challenges teachers may face, including lesson planning, marking, and feedback; behaviour and classroom management; work-life balance; progression, CPD, and networking. With the voices of teaching professionals woven throughout, this is essential reading for new teachers, those undertaking initial teacher training, QT mentors, and other teaching staff that support new teachers in the early stages of their career.

Singing For Life Gregory Barz, 2014-06-17. Efforts within the past decade to address the HIV/AIDS pandemic in sub-Saharan Africa have dealt with HIV/AIDS principally as a medical concern, despite the fact that doctors continue to be confronted with the complex relationship of the disease to broader social issues. When medical and governmental institutions fail, artists step in. Contemporary performances in Uganda often focus on gender and health-related issues specific to women and youths in which song texts warn against risky sexual environments or unprotected sexual behavior. Music, dance, and drama are principal tools of local initiatives that disseminate information, mobilize resources, and raise societal consciousness regarding

issues related to HIV AIDS Through case studies song texts interviews and testimonies Singing for Life HIV AIDS and Music in Uganda examines the links between the decline in Uganda s infection rate and grassroots efforts that make use of music dance and drama Only when supported and encouraged by such performances drawing on localized musical traditions have medical initiatives taken root and flourished in local healthcare systems Gregory Barz shows how music can be both a mode of promoting health and a force for personal therapy presenting a cultural analysis of hope and healing Governor's Message ...
