Legal Documents Loan:

Legal Documents from the Judean Desert Aharon Layish, 2011-07-12 This volume presents annotated English translations of 74 awards handed down by tribal arbitrators and other legal documents obtained from the Bedouin of the Judean Desert. The documents address such legal issues as blood and sexual offenses, family disputes, inheritance, private transactions in land and water rights, tribal boundaries, contracts and obligations. The documents, some of which date back to the 19th century, provide vital information on the process of Islamization of the tribal customary law in the precinct of the tribal judge. The facsimile reproductions of the manuscripts are included, rendering direct access to the original documents. The study is intended for students of Islamic law, of customary law and of comparative law and historians interested in the legal, social and economic history of modern Palestine and Jordan. A linguistic essay by Dr M. S. Shaw, based on the Bedouin documents, appears at the end of the study.

International Banking Law and Regulation Matteo Zambelli, 2025-11-05. International Banking Law and Regulation offers a critical exploration of the legal and regulatory frameworks that govern the global banking sector. Tracing the development of banking from its mediaeval origins to today's complex cross-border financial structures, this book examines how law and regulation underpin financial stability, guide corporate lending and respond to technological and geopolitical change. From foundational concepts such as money and payment systems to prudential supervision and corporate governance to the intricacies of syndicated lending, ESG finance, securitisation and Islamic finance, each chapter considers the evolving interaction between legal norms, financial innovation and regulatory oversight. Special attention is paid to cross-border lending, crisis management, anti-financial crime frameworks and creditor hierarchies, with comparative insights from major jurisdictions including the UK, EU, US, China, India and Japan. Written for students of law, of banking and finance, early career practitioners and policymakers, this volume combines legal analysis with a practical international outlook. It explains how banking law operates across jurisdictions, enabling financial institutions to manage risk, meet regulatory obligations and support global economic activity. In a rapidly evolving financial landscape, this book provides a timely and authoritative guide to the legal principles shaping the future of international banking.
