Caution: Time and date are retained for max. 1 minute.

	Move the slider to the very right to position RUN (only way to close the cover).
	Set the operating mode with the operating mode selector. Factory setting is .

Fix the operating instructions and reinsert in the mounting base.

Turn on display lighting, check error messages or other important information

	Press the info button once to activate display backlighting. Backlighting goes off automatically after a short time. Continuing to press the info button activates the information display: Info is lit. The device first shows pending error messages and then important information (e.g. switching programs, ...).
--	---

Change the temperature level in the time switch program, or are you not at home for a while?

	In the time switch program, press this button to change from the current temperature level to the next and back. Quickly activate energy saving temperature when you leave the apartment briefly to save energy. The change appears on the display. It is valid only until the next switching time.
