The Game Believes in You Greg Toppo, 2025-06-25 What if schools from the wealthiest suburban nursery school to the grittiest urban high school thrummed with the sounds of deep immersion More and more people believe that can happen with the aid of video games Greg Toppo's *The Game Believes in You* presents the story of a small group of visionaries who for the past 40 years have been pushing to get game controllers into the hands of learners Among the game revolutionaries you'll meet in this book A game designer at the University of Southern California leading a team to design a video game version of Thoreau's *Walden Pond* A young neuroscientist and game designer whose research on *Math Without Words* is revolutionizing how the subject is taught especially to students with limited English abilities A Virginia Tech music instructor who is leading a group of high school aged boys through the creation of an original opera staged totally in the online game *Minecraft* Experts argue that games do truly believe in you They focus inspire and reassure people in ways that many teachers can't Games give people a chance to learn at their own pace take risks cultivate deeper understanding fail and want to try again right away and ultimately succeed in ways that too often elude them in school This book is sure to excite and inspire educators and parents as well as provoke some passionate debate

Big Ideas in Education Dr Russell Grigg, 2016-06-02 *Big Ideas in Education* What Every Teacher Should Know by Dr Russell Grigg provides an accessible and easily understood introductory guide to the big ideas that really matter in education The teaching profession is saturated with ideas Unfortunately some of these are half baked or fundamentally flawed Dr Russell Grigg moves beyond the unhelpful supposed dichotomies that pervade current educational thinking child centred versus teacher centred traditional versus progressive Throughout the book readers are invited to question assumptions and popular rhetoric and reflect on their own experiences *Big Ideas in Education* aims to equip teachers with a good understanding of current thinking in a diverse fluid and dynamic field Each of the big ideas is discussed within the framework of four questions what is the big idea who is behind it why is it important and what can you do Big ideas are important distinctive empowering adaptable and simple to understand Dr Russell Grigg provides readers with a concise and reliable introduction to twelve such ideas which are at the

core of educational practice The ideas chosen are general rather than subject specific in nature In turn they invite the reader to look at teaching in wider society address elements of learning which teachers actively promote raise questions about why how and what to teach and finally look at ways of improving the quality of education The twelve big ideas under discussion are 1 Education education goes beyond the school gates and is a lifelong experience 2 Childhood children need time and space to explore enjoy learning and develop as children rather than miniature adults 3 Knowledge knowledge is the foundation for learning 4 Skills learners need to develop a broad range of skills in real life relevant contexts 5 Dispositions effective learning depends upon cultivating positive dispositions 6 Ethics teachers conduct should be guided by a moral purpose 7 Instruction direct instruction is a tried and tested means of effective teaching 8 Curriculum the curriculum is all the learning and assessment activities in school both planned and unintentional that contribute to agreed educational goals 9 Feedback providing personalised accurate specific and timely feedback is one of the keys to improving learning 10 Reflective practice good teachers critically analyse their practice with a view to improving what they do 11 Research research has a central role to play in the professional development of teachers 12 Professional leadership effective school leadership operates at all levels and is about shared vision support and securing improvement An ideal book for busy teachers who need to be kept up to speed with the latest thinking in education this comprehensive guide provides the essential knowledge to keep you fully informed whether leading staff discussions submitting assignments or preparing for interviews Suitable for teachers in any setting from trainees and NQTs to more experienced practitioners looking to reflect on their practice the book will also appeal to school leaders and teacher training providers

Mathematics Matters in Education Yeping Li,W.

James Lewis,James J. Madden,2017-10-03 This book is inspired by Roger E Howe s contributions to the international communities of mathematics and mathematics education Renowned for his research contributions in the fields of representation theory automorphic forms harmonic analysis and invariant theory Dr Howe has also fundamentally deepened our understanding of the mathematics taught in the early school grades and has challenged and stimulated mathematicians and mathematics educators to work together to examine this part of the mathematical universe more critically and in imaginative new ways This volume will help summarize and highlight Howe s contributions to several topic areas in mathematics education demonstrating the possibility and importance of engaging mathematicians in high impact research in mathematics education and showcasing the importance of cross disciplinary collaboration and exchange
