Military Dictatorship The Impact Of A Tragedy:

Military Dictatorship Uche Ifediba, 2003 *The Tragic Transformed* Burç İdem Dinçel, 2024-03-08 This book provides a novel way of looking at translational phenomena in contemporary performances of Attic tragedies via the formidable work of three directors each of whom bears the aesthetic imprint of Samuel Beckett Theodoros Terzopoulos Ahika Tekand and Tadashi Suzuki Through a discerningly transdisciplinary approach translation becomes retransformed into a mode of physical action its mimetic nature reworked according to the individual directors responses to Attic tragedies As such the highly complex notion of mimesis comes into prominence as a thematic thread divulging the specific ways in which the pathos epitomised in the works of Aeschylus Sophocles and Euripides is reawakened on the contemporary stage By employing mimesis as a conceptual motor under the overarching rubric of the art of tragic theatre the monograph appeals to a wide range of scholarly readers and practitioners across the terrains of Translation Studies Theatre Studies Classical Reception Comparative Literature and Beckett Studies **Adapting Greek Tragedy** Vayos Liapis, Avra Sidiropoulou, 2021-04-01 Adaptations of Greek tragedy are increasingly claiming our attention as a dynamic way of engaging with a dramatic genre that flourished in Greece some twenty five centuries ago but remains as vital as ever In this volume fifteen leading scholars and practitioners of the theatre systematically discuss contemporary adaptations of Greek tragedy and explore the challenges and rewards involved therein Adopting a variety of methodologies viewpoints and approaches the volume offers surveys of recent developments in the field engages with challenging theoretical issues and shows how adapting Greek tragedy can throw new light on a range of contemporary issues from our relation to the classical past and our shifting perceptions of ethnic and cultural identities to the place function and market value of Greek drama in today's cultural industries The volume will be welcomed by students and scholars in Classics Theatre Drama and Performance Studies as well as by theatre practitioners *Tragic Orphans* Carl Vadivella Belle, 2016-05-13 In 1938 noting that the bulk of the Indian population formed a landless proletariat and despairing of the ability of the factionalized Indian community to unite in pursuit of common objectives activist K A Neelakanda Ayer forecast that the fate of Indians in Malaya would be to become the Tragic orphan of whom India has forgotten and Malaya looks down upon with contempt Ayer's words continue to resonate as a minority group in a nation dominated politically by colonially derived narratives of race and ethnicity and riven by the imperatives of religion the general trajectory of the economically and politically impotent Indian community has been one of increasing irrelevance This book explores the history of the modern Indian presence in Malaysia and traces the vital role played by the Indian community in the construction of contemporary Malaysia In this comprehensive new study Carl Vadivella Belle offers fresh insights on the Indian experience spanning the period from the colonial recruitment of Indian labour to the post Merdeka political economic and social marginalization of Indians While recent Indian challenges to the political status quo a regime described as that of the benign neglect promoted Indian hopes of reform change and uplift the

author concludes that the dictates of political discourse permeated by the ideologies of communalism offer limited prospects for meaningful change *Political and Strategic Implications of Homeporting in Greece* United States. Congress. House. Foreign Affairs,1972 **Political and Strategic Implications of Homeporting in Greece** ,1972 **Congressional Record** United States. Congress,1969 **After Dictatorship** Peter Hoeres,Hubertus Knabe,2023-02-20 Numerous studies concerning transitional justice exist However comparatively speaking the effects actually achieved by measures for coming to terms with dictatorships have seldom been investigated There is an even greater lack of transnational analyses This volume contributes to closing this gap in research To this end it analyses processes of coming to terms with the past in seven countries with different experiences of violence and dictatorship Experts have drawn up detailed studies on transitional justice in Albania Argentina Ethiopia Chile Rwanda South Africa and Uruguay Their analyses constitute the empirical material for a comparative study of the impact of measures introduced within the context of transitional justice It becomes clear that there is no sure formula for dealing with dictatorships Successes and deficits alike can be observed in relation to the individual instruments of transitional justice from criminal prosecution to victim compensation Nevertheless the South American states perform much better than those on the African continent This depends less on the instruments used than on political and social factors Consequently strategies of transitional justice should focus more closely on these contextual factors **Hearings** United States. Committee on Foreign Affairs (1789-1975),1969 **The Military and Domestic Politics** Rebecca L. Schiff,2008-08-13 The intervention of the military in national politics and the everyday lives of citizens is a key question in civil military relations This book explains how concordance theory can provide a model for predicting such domestic intervention Models dealing with the relationship between the military and society are usually based on Western nations with power and influence and therefore may not be appropriate for the circumstances of non Western countries By contrast concordance theory considers national contexts where the balance of military involvement in civilian life depends greatly on historical circumstances institutional nuances and cultural realities Using five case studies India Pakistan Israel Argentina and Post Revolutionary America this book challenges traditional views on the role of the military in society and offers convincing examples for the continual application of concordance theory It also explores the evolution of the theory from the

field of military studies to one of corporate concordance This book will be of much interest to advanced students of Civil Military Relations military sociology political science and US politics Foreign Assistance Act of 1969 United States. Congress. House Foreign Affairs,1969 A Heart Turned East Adam LeBor,2001-08 In a series of essays both prescriptive and inspirational Brian McNaught the author of *On Being Gay* and one of the most prominent writers on the issue of sexuality leads readers through the basic issues that gay men and lesbians will have to confront as they try to find a place for themselves in an often hostile world **Assessing the Long-Term Impact of Truth Commissions** Anita Ferrara,2014-09-19 In 1990 after the end of the Pinochet regime the newly elected democratic government of Chile established a Truth and Reconciliation Commission TRC to investigate and report on some of the worst human rights violations committed under the seventeen year military dictatorship The Chilean TRC was one of the first truth commissions established in the world This book examines whether and how the work of the Chilean TRC contributed to the transition to democracy in Chile and to subsequent developments in accountability and transformation in that country The book takes a long term view on the Chilean TRC asking to what extent and how the truth commission contributed to the development of the transitional justice measures that ensued and how the relationship with those subsequent developments was established over time It argues that contrary to the views and expectations of those who considered that the Chilean TRC was of limited success that the Chilean TRC has in fact over the longer term played a key role as an enabler of justice and a means by which ethical and institutional transformation has occurred within Chile With the benefit of this historical perspective the book concludes that the impact of truth commissions in general needs to be carefully reviewed in light of the Chilean experience This book will be of great interest and use to students and scholars of conflict resolution criminal international law and comparative legal systems in Latin America **Hearings on H.R. 4931 (H.R. 5604), to Authorize Certain Construction at Military Installations for Fiscal Year 1985, and for Other Purposes** United States. Congress. House. Committee on Armed Services. Subcommittee on Military Installations and Facilities,1984 **Law and the Epistemologies of the South** Boaventura de Sousa Santos,2023-06-01 Modern state law excludes populations peoples and social groups by making them invisible irrelevant or dangerous In this book Boaventura de Sousa Santos offers a radical critique of the law and develops an innovative paradigm of socio legal studies which is based on the historical experience of the Global South He traces the history of modern law as an abyssal law or a kind of law that is theoretically invisible yet implements profound exclusions in practice This abyssal line has been the key procedure used by modern modes of domination capitalism colonialism and patriarchy to divide people into two groups the metropolitan and the colonial or the fully human and the sub human Crucially de Sousa Santos rejects the decadent pessimism that claims that we are living through the end of history Instead this book offers practical hopeful alternatives to social exclusion and modern legal domination aiming to make post abyssal legal utopias a reality
