Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman,Aaron Lin,2015-07-07 The tensions between the Koreas and the potential involvement of China Japan Russia and the United States in a Korean conflict create a nearly open ended spectrum of possible conflicts These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to the extreme of nuclear conflict The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China particularly with the U S pivot toward Asia and the steady modernization of Chinese forces This new volume up to date through Spring 2015 provides a detailed examination of the military forces in Northeast Asia North and South Korea China Russia Japan and the United States setting those forces in the larger geostrategic context *A Guide to Intra-state Wars* Jeffrey S.

Dixon,Meredith Reid Sarkees,2015-10-22 This title describes how civil war is defined and categorized and presents data and descriptions for nearly 300 civil wars waged from 1816 to the present Analyzing trends over time and regions this work is the definitive source for understanding the phenomenon of civil war **The Evolving Military Balance in the Korean**

Peninsula and Northeast Asia Anthony H. Cordesman,Ashley Hess,2013-07-10 The Evolving Military Balance in the Korean Peninsula and Northeast Asia describes the strategy force deployments and the military balance in potential current and future scenarios involving the Democratic People s Republic of Korea Republic of Korea People s Republic of China Japan and the United States The analysis in these volumes shows how tensions between the Koreas and the potential involvement of the China Japan Russia and the United States create a nearly open ended spectrum of possible conflicts These range from

posturing and threats wars of intimidation to a major conventional conflict on the Korean Peninsula to intervention by outside powers like the United States and China to the extreme of nuclear conflict The analysis shows that the Korean balance is sharply affected by the uncertain mix of cooperation and competition between the United States and China The U S rebalancing of its forces to Asia and the steady modernization of Chinese forces in particular the growth of Chinese sea air missile capabilities affect the balance in the Koreas and Northeast Asia They also raise the possibility of far more intense conflicts that could extend far beyond the boundaries of the Koreas

Cordesman,2015-01-23 Iran's rocket and missile forces serve a wide range of Iranian strategic objectives These forces range from relatively short range artillery rockets that support its ground forces and limit the need for close air support to long range missiles that can reach any target in the region and the development of booster systems that might give Iran the ability to strike at targets throughout Europe and even in the United States Iran's forces and

systems are steadily evolving While the lethality of most current systems is limited by a reliance on conventional warheads poor accuracy and uncertain reliability Iran is developing steadily improved guidance systems attempting to improve the lethality of its conventional warheads and has at least studied arming its missiles with nuclear warheads **Ascending**

China and the Hegemonic United States Jörg Vogelmann, 2020-09-04 Jörg Vogelmann looks into one of the central political and economic relationships of the 21st century The author finds Sino U S ties marked by strong slightly asymmetric economic interdependence a relatively fast economic power transition under way as well as slow to moderate shifts in military power He develops a neoliberal and a neorealist grand theory picture of Sino U S and international relations and empirically verifies these influential perspectives by analyzing post Cold War Chinese and U S foreign policies in the major flashpoints the Taiwan and the North Korea issue Despite and due to globalization ties between ascending China as a potential regional or once even global U S challenger and the hegemonic United States may likely continue to be marked by strategic power politics and will decisively affect trans and international relations **Counter-Insurgency in Nigeria** Akali

Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work's analysis of the air force's role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general PLA Modernisation and Likely Force

Structure 2025 Nagender SP Bisht, 2015-02-01 China is modernizing her military very rapidly and as her economy strengthens the pace of military modernization is going to touch higher trajectories This modernization would impact and alter the existing strategic environment in the world In the region the impact will be more profound and will force her neighbors to rework their own military modernization programs war fighting doctrines and their present position on relations with China and other regional powers and the US Today in addition to issues relating to human resource development the biggest impediment is the availability of technology to develop new modern weapon systems and equipment Will the drivers

and trends of Chinese military modernization continue to be same or will there be changes How will the modernization impact the PLA behavior especially in its neighborhood How will the neighbors react to this stupendous pace of militarization in the East Asia What will be the role of Japan Vietnam India Russia and US How will china s restive periphery and PLA respond to the spread of Islamic fundamentalism To correctly appreciate these changes an in depth understanding of Chinese military modernization is essential This book is an effort in this direction and attempts to find some answers to the questions posed The trends of modernization of the four services of the PLA have been analyzed and a capability suggested that the PLA is likely to have by 2025 **Federated Defense in the Middle East** Jon B. Alterman, Kathleen H. Hicks, 2015-10-01

This study examines the potential for a federated defense approach to U S action in the Middle East the constraints to closer military cooperation in the region and specific capability areas that would benefit from federated defense Stabilizing the Middle East requires continued attention and investment from the United States and its global allies and partners Federated defense involves building partner capabilities in a way that shares the burden of providing security in a more effective and efficient manner Federated defense would over time create partner capabilities that augment and complement U S capabilities Doing so requires identifying discrete areas of cooperation between the United States and its allies and partners that would leverage partner capabilities in pursuing common security objectives *China's Military Power* Roger

Cliff, 2015-09-15 Once termed the world s largest military museum the Chinese military has made enormous progress over the past twenty years With skyrocketing military budgets and new technology China s tanks aircraft destroyers and missile capabilities are becoming comparable to those of the United States If these trends continue how powerful will the Chinese military be in the future Will its capabilities soon rival or surpass those of the United States The most comprehensive study of its kind this book provides a detailed assessment of China s military capabilities in 2000 and 2010 with projections for 2020 It is the first of its kind in outlining a rigorous theoretically and empirically grounded framework for assessing military capability based on not just weaponry but also doctrine training equipment and organizational structure This framework provides not only the most accurate assessment of China s military to date but an important new tool in the study of military history *Niebuhrian International Relations* Gregory J. Moore, 2020-04-03 Reinhold Niebuhr s ideas about ethics social

justice and foreign policy have been hugely influential for American political thought and this has been true across the political spectrum from progressive social justice activists to neo conservatives A one time leader in the Socialist party Niebuhr worked with Eleanor Roosevelt to found Americans for Democratic Action Jimmy Carter took inspiration from his ideas about love and justice and Barack Obama has praised him as one of his favorite philosophers His theories have also influenced neoconservatives many of whom cited his work to support the 2003 invasion of Iraq Yet Niebuhr never published a single comprehensive book on his approach to international relations and because he was so prolific one would have to sift through volumes of his work to try to construct such a unified vision This book distills Niebuhr s disparate and heretofore

difficult to access work on international relations into one concise and accessible volume Drawing from the well springs of Niebuhr s Christian social thought the volume explores the depths of Niebuhr s views on human nature race collective life U S foreign policy Just War Theory Cold War era containment globalization and the U N It then applies his approach to contemporary foreign policy issues such as the 2003 Iraq War the Responsibility to Protect and the rise of China The book also considers Niebuhr s contribution to IR theory and contextualizes it in the present day revival of classical Realism with a multivariate existentialist twist Ultimately the book asserts that Niebuhr s notion of a fallible self interested view of human nature his dialectical approach and a related moral dualism run throughout his work on politics and international relations as they did through the rest of his work Routledge Handbook of Chinese Security Lowell Dittmer, Maochun Yu, 2015-05-08 Located in the center of Asia with one of the largest land frontiers in the world and 14 neighbors whose dispositions could not easily be predicted China has long been obsessed with security In this handbook an internationally renowned team of contributors provide a comprehensive and systematic analysis of contemporary thinking about Chinese national security Chapters cover the PRC s historical ideological and doctrinal heritage related to security its security arrangements and policies targeting key regions and nations of the world the security aspects of the PRC s ground air sea space and cyber forces as well as the changing and expanding definition and scope of China s security theory and practice **Breaking Point** Michael O. Slobodchikoff, 2024-11-25 The post Cold War order established by the United States of America is currently at a crossroads No longer is the liberal order and United States hegemonic power a given Moscow and Beijing have both begun their challenges to the United States While long dissatisfied with US hegemony in February 2022 Russian President Vladimir Putin ordered the invasion of Ukraine by the Russian military The response by the United States and its allies was swift and unprecedented Wave after wave of sanctions were levied against Moscow and NATO member states began to provide military support to Kyiv in trying to maintain its independence from Moscow The first major war on the European continent since World War II was to have a profound global effect on relations with other countries First there was a significant demographic impact as migrants left Ukraine either to the West or to Russia Further as men were prevented from leaving Ukraine due to mandatory conscription the refugees were overwhelmingly made up of either old people or women with children Russia also was not spared from a huge demographic crisis Not only has it lost an enormous amount of young men to the war but it also instituted forced conscription leading to many men fleeing the country Initially Washington described the invasion of Ukraine as a war between democracy and autocracy with Kyiv being on the front lines of this new war However the real situation was much more complicated than a simple framing of the conflict While Kyiv enjoyed overwhelming support from the United States and its NATO allies other democracies globally were a lot warier of supporting Ukraine Countries like India Turkey Hungary South Africa Brazil and other democracies began a strategy of hedging Publicly they urged caution in the conflict stating that while Moscow possessed legitimate security concerns that the conflict had to

be resolved peacefully The hedging strategy employed by much of the world confused Washington however the United States found its attention torn between two continents The war in Ukraine was its main concern however a newly resurgent China threatened to begin its own war against Taiwan Washington could ill afford a diplomatic blitz to force hedging states to support its policies in Kyiv Moscow on the other hand recognized that it stood to gain from Washington's focus It began to bolster its diplomatic efforts to woo those hedging countries into not aligning with the United States Further the alliance between Moscow and Beijing deepened during this period In other words a period of tremendous uncertainty about the future of the global order was born In this book we examine the aftermath of Moscow's invasion and its implications on the global order In this edited volume we first examine the regional effects of the invasion We then examine Moscow's relations with other states globally and argue that while it is not possible to predict who will win the war in Ukraine that the war has had a profound impact on both Russia's relations with the world as well as on the United States global relations

Security and Conflict in East Asia Andrew Tan, 2015-04-24 *Security and Conflict in East Asia* provides a timely and comprehensive analysis of the sources and implications of conflict on the Korean peninsula and in the People's Republic of China and Japan the three biggest economies in the world This analysis provides the building blocks for effective solutions to manage these tensions more effectively and is a vital resource to those seeking a clearer understanding of conflict in the most pivotal region in the world In the context of increasingly tense China US strategic rivalry the ever present potential for conflict on the Korean peninsula and over Taiwan the absence of effective regional institutions and regimes the emerging arms race in the region the rise in nationalism and the absence of crisis management mechanisms there are many good reasons why the high potential exists for miscalculation and misperception sparking a regional conflict Given the presence of nuclear armed powers in East Asia namely China North Korea and the USA it is also possible that any regional conflict could escalate into a nuclear conflict involving the world's three largest economies the USA China and Japan The security of and any conflict in East Asia thus has tremendous implications for global security The Handbook is divided into four parts The introductory section includes chapters which set the context explain the history of international relations in East Asia and examine the phenomenon of regional arms race The second section is made up of a series of chapters focusing on China examining China's military modernization its relationship with the USA and the various territorial disputes in which it has been involved The third section focuses on Japan and North and South Korea looking at the security challenges facing Japan and the Korean peninsula A concluding section examines the future role of China and the USA in East Asia as well as the prospects for managing security in the region The contributing authors are all experts in their respective fields and all share an abiding concern over developments in East Asia Their contributions aim to assist in a better understanding of the issues to suggest possible solutions and draw attention to the need for diplomacy confidence building measures crisis management mechanisms and other measures to prevent conflict This volume will be of use to government institutions involved in foreign

policy intelligence and defence reference libraries universities research institutes and non governmental organisations It will also appeal to analysts researchers journalists policy advisers students academics and the general reader Scholarly analysis is yet to catch up and currently there are no other comprehensive works examining conflict in East Asia in the context of the current tensions
