**A Compact Study of Numbers** William Thomas Miller, 2013-12-10 Individuals and groups reading the Scriptures for their own enrichment can find appropriate guides for Genesis and Exodus Numbers is another matter The complexities of ritual laws holy days moral codes and conflicts experienced by Moses and the people during their forty years in the wilderness form a daunting maze Average readers especially Christians are often unsure of the inner logic of the regulations or of how to apply the sound theology found therein This compact study starts with Numbers following the story from exodus to the wilderness The format is Socratic asking as many step by step questions as seems reasonable and providing the answers at the back to encourage note taking and discussion beforehand The forty years of strife depict the deep spiritual stresses experienced by the Chosen People and by God and can serve our own understanding for surviving challenges as a people called by God Another lesson is the significant role of ancient Jewish laypeople within their system of ritual and prayer They did much more than simply watch priests handle altar sacrifices and incense A better understanding of that ancient teamwork in worship can aid our own modern worship customs

Copyright Office,1957 **A Polish Factory** Jiri Kolaja,2021-03-17 Industrial sociologists for many years have been limited almost entirely to studies of Western factories For the Communist world they have been compelled to advance hypotheses based upon the assumption that political ideology determines the character of management labor relations Now for the first time Mr Kolaja s pioneering examination of worker participation in the management of a textile factory in Lodz Poland provides specific evidence for testing these theories For eight weeks in the summer of 1957 while the liberal atmosphere of the Polish October Revolution of 1956 still prevailed Mr Kolaja observed the behavior of two work groups in the weaving department of the Lodz factory supplementing these data by interviews and questionnaires The workers he found for the most part eager to talk particularly to complain perhaps finding in this American citizen who spoke Polish with a Czechoslovak accent an outlet for repressed feelings In general Mr Kolaja found the weavers were almost untouched by the Communist ideology The Lodz workers like their counterparts in the West worked for the pay envelope blamed poor output upon technological and managerial deficiencies beyond their control and sought to relieve the monotony of mass production by activities outside the factory They responded little to efforts to involve them in the problems of the plant and they considered the management people to be in a different and opposed class Unwilling to abandon the doctrine that management labor conflict does not exist in a Communist society the Polish government had tried over the

years to motivate the workers participation in operational decisions The latest of these attempts coming shortly after the October political change was the workers council This body superimposed upon the existing management labor union and party structures in the Lodz factory served both to stimulate some interest among a few workers and to complicate the task of the plant director a forceful man who had to promote the participation of workers whom he knew were unmoved by the principle of collective ownership This he did Mr Kolaja observed by reporting decisions to the workers council as accomplished facts and asking its delegates to communicate them to their fellow laborers The workers faced no such dilemma They tended to accept the workers council as yet another management organization particularly after it had agreed to delay sharing the plant s profit Yet one of them denoted here as I 5 and surely the hero of the book took his election to the workers council more seriously and several times at its meetings embarrassed subordinate managers with his forthright statements He was unable to fluster the plant director however who relied upon I 5 s regard for his responsibilities to place him in the position of having to justify the profit sharing decision to his fellow weavers The direction seemed clear by the time of Mr Kolaja s departure I 5 had been invited to join the party no workers in the two groups studied were members and he was about to be coopted by management
