 Standards NGSS which advocate a move away from procedural lab investigations and direct instruction and toward  
 increased emphasis on reasoning sensemaking phenomena exploration problem solving and collaboration Under this new  
 paradigm students are learning real science as scientists practice it so that more and more students are actively investigating  
 questions and pursuing solutions of their own making As part of the Five to Thrive series for early career educators this  
 comprehensive guide provides those who are new to teaching science as well as seasoned teachers looking to enhance their  
 practice the fundamentals to develop best teaching practices that reflect their students experiences and requirements  
 Written by experienced science educators *Answers to Your Biggest Questions About Teaching Secondary Science* provides  
 practical guidance on successful strategies and techniques for teaching science in a way that gives every student the  
 opportunity to learn grow and achieve at high levels while providing opportunities to develop their agency and authority in  
 the classroom ultimately resulting in a positive science identity The book is organized around five overarching questions and  
 answers that will help you most thrive in your secondary science classroom How do I build a positive science community How  
 do I structure organize and manage my science class How do I engage my students in science How do I help my students talk  
 about science How do I know what my students know and how can I use that information to plan and move them forward The  
 book concludes with a sixth question Where do I go from here that provides guidance for growing your practice over time  
 including discussions on self care advocating for students and an extensive discussion on growing your professional network  
 Woven throughout you ll find helpful sidebar notes on fostering identity and agency access and equity teaching in different  
 settings and invaluable resources for deeper learning Strive to become the best science educator you can be your students
