Neighbourhood Policy and the Construction of the European External Borders Filippo Celata, Raffaella Coletti, 2015-06-11 This book looks both backward and forward with regard to the European Union s political strategies towards its neighbouring

countries By bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU's external frontiers Is the EU committed to promoting integration in a wider European space or is a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders The book aims to problematize this question by showing how the EU's external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation The European Neighbourhood Policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border A specific focus is devoted to the diversity of geo strategies the EU is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players

How the World Breaks Stan Cox, Paul Cox, 2016-07-12 We've always lived on a dangerous planet but its disasters aren't what they used to be *How the World Breaks* gives us a breathtaking new view of crisis and recovery on the unstable landscapes of the Earth's hazard zones Father and son authors Stan and Paul Cox take us to the explosive fire fronts of overheated Australia the future lost city of Miami the fights over whether and how to fortify New York City in the wake of Sandy the Indonesian mud volcano triggered by natural gas drilling and other communities that are reimagining their lives after quakes superstorms tornadoes and landslides In the very decade when we should be rushing to heal the atmosphere and address the enormous inequalities of risk a strange idea has taken hold of global disaster policy resilience Its proponents

say that threatened communities must simply learn the art of resilience adapt to risk and thereby survive This doctrine obscures the human hand in creating disasters and requires the planet s most beleaguered people to absorb the rush of floodwaters and the crush of landslides freeing the world economy to go on undisturbed The Coxes great contribution is to pull the disaster debate out of the realm of theory and into the muck and ash of the world s broken places There we learn that change is more than mere adaptation and life is more than mere survival Ultimately How the World Breaks reveals why unless we address the social ecological and economic roots of disaster millions more people every year will find themselves spiraling into misery It is essential reading for our time **Sentient Subjects** Gerda Roelvink, Magdalena

Zolkos, 2020-12-27 Non cognitive expressions of the life of the subject feeling motion tactility instinct automatism and sentience have transformed how scholars understand subjectivity agency and identity This collection investigates the critical purchase of the idiom of affect in this post humanist thinking of the subject It also explores political and ethical questions raised by the deployment of affect as a theoretical and artistic category Together the contributors to this collection map the theoretically heterogeneous field of post humanist scholarship on affect making inspiring and at times surprising connections between Spinoza s and Tomkins s theories of affect the concept of affect and psychoanalysis and affect and animal studies in art and literature As a result the concepts vocabulary compatibility and attribution of affect are challenged and extended The chapters in this book were originally published as a special issue of Angelaki **The Complacent Class** Tyler

Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen s blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential

segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again The Econocracy Joe Earle, Cahal Moran, Zach Ward-Perkins, 2017-07-06 A century ago the idea of the economy didn't exist Now economics is the supreme ideology of our time with its own rules and language The trouble is most of us can't speak it This is damaging democracy Dangerous agendas are hidden inside mathematical wrappers controversial policies are presented as proven by the models of economic science Government is being turned over to a publicly unaccountable technocratic elite The Econocracy reveals that economics is too important to be left to the economists and shows us how we can begin to participate more fully in the decisions which affect all our futures

Climate Change, Migration and Conflict in Bangladesh Md Rafiqul Islam, 2023-08-18 This book explores the relationship between climate change induced migration and conflict in Bangladesh one of the most ecologically fragile countries in the world It explores why people migrate from their original place of land and how the migration of people with a different background to an ethnically distinctive region due to environmental changes can become a source of conflict and violence between the host peoples and migrants The volume focuses on the Chittagong Hill Tracts CHT which has experienced long standing ethnopolitical conflict due to the settlement and migration of the Bengali people from the plain land of Bangladesh This settlement and migration were mainly caused climatic events such as floods cyclones sealevel rise and disasters It traces the history of the ethnic conflict in the region and presents key findings from the field as well as the dynamics of everyday politics in the region This volume also highlights how internally climate displaced people generate violence and civil strife in the major urban cities through their settlements in slums The volume will be of great interest to scholars and researchers of environmental studies human geography migration and diaspora studies public policy social anthropology and South Asian studies

Sustainability in Contemporary Rural Japan Stephanie Assmann,2015-12-22 Rural communities in Japan have suffered from significant depopulation and economic downturn in post war years Low birth rates aging populations agricultural decline and youth migration to large cities have been compounded by the triple disaster of 11 March 2011 which destroyed farming and fishing communities and left thousands of people homeless This book identifies these challenges and acknowledges that an era of post growth has arrived in Japan Through exploring new forms of regional employment community empowerment and reverse migration the authors address potential opportunities and benefits that may help to create and ensure the quality of life in depopulating areas and post disaster scenarios This book will be of interest not only to students of Japanese society but also to those outside of Japan who are seeking new approaches for tackling depopulation challenges **Push Back** Judith Large,2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace Push Back is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics

The EU Migration System of Governance Michela Ceccorulli,Enrico Fassi,Sonia Lucarelli,2020-10-01 This book explores the norms practices and main actors in the EU Migration System of Governance EUMSG Bringing a fresh perspective to the analysis of asylum and migration in Europe the volume unpacks the European

Union's approach to migration and points to the principles and actions of EU member states. Moreover, it explores the EUMSG's performance through the lenses of three alternative yet coexistent understandings of justice: non-domination, impartiality, and mutual recognition, thereby overcoming a unilateral ethical viewpoint and moving away from the open/closed borders debate.

Psychosocial Skills and School Systems in the 21st Century Anastasiya A. Lipnevich, Franzis Preckel, Richard D. Roberts, 2016-04-02

This book provides a comprehensive overview and in-depth analysis of research on psychosocial skills, examining both theory and areas of application. It discusses students' psychosocial skills both as components of academic success and desired educational outcomes in grades K through 12. The book describes an organizing framework for psychosocial skills and examines a range of specific constructs that includes achievement, motivation, self-efficacy, creativity, emotional intelligence, resilience, and the need for cognition. In addition, it reviews specific school-based interventions and examines issues that concern the malleability of psychosocial skills. It addresses issues relating to the integration of psychosocial skills into school curriculum as well as large-scale assessment policies. Topics featured in this book include: Development of psychosocial skills in grades K-12; Assessment of psychosocial skills; Conscientiousness in education and its relation to meaningful educational outcomes; Creativity in schools including theory, assessment, and interventions; Academic emotions and their regulation through emotional intelligence; Resilience and school-based programs aimed at enhancing it. *Psychosocial Skills and School Systems in the 21st Century* is a must-have resource for researchers, graduate students, clinicians, mental health professionals, and policymakers in child and school psychology, educational policy, and politics, public health, social work, developmental psychology, and educational psychology.
