Geography Examination End Of The Year Memorandum 2014:

Governing Transboundary Waters Emma S. Norman, 2014-11-27 Winner of the Political Geography Specialty Group's 2015 Julian Minghi Distinguished Book Award With almost the entire world's water basins crossing political borders of some kind understanding how to cooperate with one's neighbor is of global relevance For Indigenous communities whose traditional homelands may predate and challenge the current borders and whose relationship to water sources are linked to the protection of traditional lifeways or ways of life transboundary water governance is deeply political This book explores the nuances of transboundary water governance through an in depth examination of the Canada US border with an emphasis on the leadership of Indigenous actors First Nations and Native Americans The inclusion of this third sovereign in the discussion of Canada U S relations provides an important avenue to challenge borders as fixed both in terms of natural resource governance and citizenship and highlights the role of non state actors in charting new territory in water governance The volume widens the conversation to provide a rich analysis of the cultural politics of transboundary water governance In this context the book explores the issue of what makes a good up stream neighbor and analyzes the rescaling of transboundary water governance Through narrative the book explores how these governance mechanisms are linked to wider issues of environmental justice decolonization and self determination To highlight the changing patterns of water governance it focuses on six case studies that grapple with transboundary water issues at different scales and with different constructions of border politics from the Pacific coastline to the Great Lakes

The Struggle for Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond's racial politics since the civil rights era by demonstrating that the city's current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond's racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans

Earned Citizenship Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today The majority of unauthorized immigrants in the U S have been here for more than five years and are settling into American communities working forming families and serving in the military even though they may be detained and deported if they are discovered An open question remains as to what to do about unauthorized immigrants who are already living in the United States On one hand it is important that the government sends a message that future violations of immigration law will not be tolerated On the other sits a deeper ethical

dilemma that is the focus of this book what do the state and citizens owe to unauthorized immigrants who have served their adopted country **Earned Citizenship** argues that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities Their service would act as restitution for immigration law violations Military service in particular would merit naturalization in countries with a strong citizen soldier tradition including the United States The book also considers the civic value of caregiving as a service to citizens and the country contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work As a whole **Earned Citizenship** provides a non humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation

Energy Abstracts for Policy Analysis ,1986 **The U.S.-China Military Scorecard** Eric Heginbotham,Michael Nixon,Forrest E. Morgan,2015-09-14 A RAND study analyzed trends in the development of Chinese and U S military capabilities in two scenarios centered on Taiwan and the Spratly Islands and multiple types of operations from 1996 to 2017 *The Poisoning of the American Mind* Lawrence M. Eppard,Jacob L. Mackey, Lee Jussim,2024-09-25

What would you have to believe in order to dress up as a shaman paint your face and storm the U S Capitol What could possibly lead somebody to claim that it upholds white supremacy to encourage hard work self reliance rational thinking punctuality and politeness Such behaviors would have been unimaginable only a few years ago And yet here we are witnessing millions of people across the political spectrum displaying these clear indications of an epistemically poisoned mind Both red America and blue America are retreating into their own information bubbles seceding from a common reality Both consume far too much misinformation and disinformation developing worldviews that can sometimes be unintelligible to others This book explores these disturbing developments and what they mean for our society and implores us all to recover a shared sense of what is true

The Soviet Colossus Michael G. Kort,2014-12-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia s history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia s past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of *The Soviet Colossus* brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one

semester history course or background for a political science course **Parliamentary Papers** Great Britain. Parliament. House of Commons,1982 **Restraint** Barry R. Posen,2014-06-03 The United States Barry R Posen argues in *Restraint* has grown incapable of moderating its ambitions in international politics Since the collapse of Soviet power it has pursued a grand strategy that he calls liberal hegemony one that Posen sees as unnecessary counterproductive costly and wasteful Written for policymakers and observers alike *Restraint* explains precisely why this grand strategy works poorly and then provides a carefully designed alternative grand strategy and an associated military strategy and force structure In contrast to the failures and unexpected problems that have stemmed from America s consistent overreaching Posen makes an urgent argument for restraint in the future use of U S military strength After setting out the political implications of restraint as a guiding principle Posen sketches the appropriate military forces and posture that would support such a strategy He works with a deliberately constrained notion of grand strategy and even more important of national security which he defines as including sovereignty territorial integrity power position and safety His alternative for military strategy which Posen calls command of the commons focuses on protecting U S global access through naval air and space power while freeing the United States from most of the relationships that require the permanent stationing of U S forces overseas *Arts & Humanities Citation Index* ,1980 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals *Geography SHORE* - Sydney Church of England Grammar School, *Sqa Specimen Paper 2014 Past Paper National 5 Geography and Hodder Gibs Sqa* (Hodder Ed),2014-09-26
