

Administrative Law A2 – Fall 2010
Professor Stephenson
Langdell South (Kirkland & Ellis Room), Mon-Tues, 8:10-10:10

Course Description: This course will study law making and law application by executive departments of government. Using the material covered in the first-year “Legislation and Regulation” course as a foundation, this class will cover a variety of topics, including the legal framework (both constitutional and statutory) that governs administrative adjudication; the proper role of agencies in interpreting statutory and regulatory law; public participation in agency rulemaking; and judicial review of agency decisions. The central theme of the course is how the law manages the tension between “rule of law” values (e.g., procedural regularity, accountability, and substantive limits on arbitrary action) and the desire for flexible, effective administrative governance.

The casebook is *Strauss, Rakoff & Farina eds., Gelhorn and Byse’s Administrative Law* (rev’d 10th ed. 2003). Casebook readings are marked “CB.” There is also a supplemental reading packet, available from the Copy Center. Readings from the supplement are marked “Supp.”

Harvard Contract Law Syllabus:

Reimagining Contract Law Pedagogy Warren Swain, David Campbell, 2019-01-14 Reimagining Contract Law Pedagogy examines why existing contract teaching pedagogy has remained in place for so long and argues for an overhaul of the way it is taught. With contributions from a range of jurisdictions and types of university, it provides a survey of contract law courses across the common law world, reviewing current practice and expressing concern that the emphasis the current approach places on some features of contract doctrine fails to reflect reality. The book engages with the major criticism of the standard contract course, which is that it is too narrow and rarely engages with ordinary life or at least ordinary contracts, and argues that students are left without vital knowledge. This collection is designed to be a platform for sharing innovative teaching experiences, with the aim of building a new approach that addresses such issues. This book will have international appeal and will be of interest to academics, researchers, and postgraduates in the fields of law and education. It will also appeal to teachers of contract law as well as governmental and legal profession policymakers.

A Comparative Study of Chinese and Western Legal Language and Culture Falian Zhang, 2021-03-08 This book involves a variety of aspects and levels, including the diachronic and synchronic dimensions. Law profoundly affects our daily lives, but its language and culture can at times be nearly impossible to understand. As a comparative study of Chinese and Western legal language and legal culture, this book investigates the similarities and differences of both sides and identifies their respective advantages and disadvantages. Accordingly, it considers both social and cultural functions and both theoretical and practical values. Firstly, the book addresses the differences that are the basic frameworks and disparities between the Chinese and Western legal languages and legal cultures. Secondly, it explores relevant changes over time, that is, the historical evolution and the basic driving forces that were at work before the Chinese and Western legal languages and cultures met. Lastly, the book elaborates on their fusion, that is, the conflicts and changes in Chinese and Western legal languages and cultures in China in the modern era, as well as the introduction, transplantation, and transformation of Western legal culture.

Great Debates in Gender and Law Rosemary Auchmuty, 2018-03-16 The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales, Gender is of central importance in every area of law and every area of people's lives, but is rarely mentioned in the formal LLB syllabus. This book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB, together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.

Sandomierski, 2020-02-24 Contrary to conventional narratives about legal education *Aspiration and Reality in Legal Education* reveals a widespread desire among law teachers to integrate both theory and practice into the education of versatile and civic minded lawyers Despite this stated desire however this aspiration is largely unrealized due to a host of intellectual and institutional factors that produce a profound gap between what professors believe about law and the ideas they communicate through their teaching Drawing on interviews with over sixty law professors in Canada David Sandomierski makes two important empirical discoveries in this book First he establishes that contrary to a dominant narrative in legal education that conceives of theory and practice as oppositional the vast majority of law professors consider theory to be vitally important in preparing better lawyers Second he uncovers a significant gap between the realist theoretical commitments held by a majority of professors and the formalist theories they almost uniformly convey through their teaching and conceptions of legal reasoning Understanding the intellectual and institutional factors that account for these tensions Sandomierski argues is essential for any meaningful project of legal education reform Bulletin of the
