Hawaiian Lei Of Shrunkn Heads:

Hawaiian Lei of Shrunkn Heads Katerina Novotna, 2015-10-05 HAWAIIAN LEI OF SHRUNKEN HEADS is Katerina Sestakova Novotna's first fiction book. It is a collection of murder stories that are dark, funny, and philosophical at the same time. They all take place in Hawaii, a place known for ethnic and cultural diversity, and they present a few different perspectives on race, religion, and other topics. The author, a philosopher by training, is not afraid to touch controversial questions that have puzzled the greatest thinkers in a humorous and nonacademic way. The narrators of her stories are not scholars. They are personalities as diverse as an insane Native Hawaiian murderer, a white racist veteran, a Buddhist student, a Russian prostitute, a mutt dog, and many others. Humans are slaughtered as a sacrifice to gods in these stories, so some parts of the book are gruesome and not suitable for more sensitive readers. Yet it is not a horror book in the strict sense. Who Wrote the Book of Love? Lee Siegel, 2010-04-15 Who Wrote the Book of Love is acclaimed novelist Lee Siegel's comedic chronicle of the sexual life of an American boy in Southern California in the 1950s. Starting at the beginning of the decade in the year that Stalin announced that the Soviet Union had developed an atomic bomb, the book opens with a child's first memory of himself. Closing at the end of the decade when Pat Boone's guide to dating, *Twist Twelve and Twenty*, topped the bestseller list, the book culminates just moments before the boy experiences for the first time what he had learned from a book read to him by his mother was called coitus or sexual intercourse or sometimes less formally just making love. Between the initial overwhelmingly erotic recollection and the final climactic moment, all is sex, beguiling and intractable, naughty and sweet. Who Wrote the Book of Love is about the subversive sexual imaginations of children. And as such, it is about the origins of love. Vignettes from the author's childhood provide the material for the construction of what is at once comic fiction, imaginative historical reportage, and an ironically nostalgic confession. The book evokes the tone and tempo of a decade during which America was blatantly happy, wholesome, and confident, and yet at the same time deeply fearful of communism and nuclear holocaust. Siegel recounts both the cheer and the paranoia of the period and the ways in which those sentiments informed wondering about sex and falling in love. Part of my plan. Mark Twain wrote in *The Adventures of Tom Sawyer* has been to try to pleasantly remind adults of what they once were themselves and of how they felt and thought and talked. With the same motive, Lee Siegel has written what Twain might have composed had he been Jewish, raised in Beverly Hills in the 1950s, and joyously obsessed with sex and love. The Memory of Bones Stephen Houston, David Stuart, Karl Taube, 2006-06-01 All of human experience flows from bodies that feel, express emotion, and think about what such experiences mean. But is it possible for us, embodied as we are in a particular time and place, to know how people of long ago thought about the body and its experiences? In this groundbreaking book, three leading experts on the Classic Maya (ca. AD 250 to 850) marshal a vast array of evidence from Maya iconography and hieroglyphic writing, as well as archaeological findings, to argue that the Classic Maya developed a coherent approach to the human body that we can recover and understand today.

The authors open with a cartography of the Maya body its parts and their meanings as depicted in imagery and texts They go on to explore such issues as how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality that were intimately bound up in these domains how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body
