Hymns In Ndebele:

Singing Culture Ezra Chitando, 2002 This study examines the historical development social political and economic significance of gospel music in Zimbabwe It approaches music with Christian theological ideas and popular appeal as a cultural phenomenon with manifold implications Applying a history of religious approach to the study of a widespread religious phenomenon the study seeks to link religious studies with popular culture It argues that gospel music represents a valuable entry point into a discussion of contemporary African cultural production Gospel music successfully blends the musical traditions of Zimbabwe influences from other African countries and music styles from other parts of the world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Christianity South of the Zambezi* Anthony J. Dachs, 1977 **Behind the Smile** Stella Nonhlanhla Mkiliwane, 2023-07-19 About the Book Behind the Smile is based on true stories of overcoming adversity and turning bad situations into hopeful ones just by a change of attitude While you may be disgruntled by trials be it health or life in general if you change your perspective you can transform a negative situation into a positive one by using whatever you re going through to affirm your faith and trust in God and that he allows this into your life for your own good It s like turning lemons into lemonade These stories show nothing in life is permanent whether it s a desert or oasis part of the journey No matter what you re going through if you hold on it will soon pass There s an abundance of unmerited favor in God s storehouse with your name on it You just need to ask About the Author Stella Nonhlanhla Mkiliwane volunteers for the International Rescue Committee as a mentor for her Zimbabwean and other African communities She has also served as vice president of ZAWAC Zimbabwe Adventist Women Abroad Conference Texas from 2021-2023 She is an international development specialist systemic family therapist and a Christian Mkiliwane enjoys traveling and farming and gardening and is intrigued by politics and religion She is a mother of four two biological and two adopted who have already made her a proud grandmother The Church in Africa, 1450-1950 Adrian Hastings, 1996 Professor Hastings also compares the relation of Christian history to the comparable development of Islam in Africa The International Journal of African Historical Studies, 1972 Ntsikana's Great Hymn Janet Hodgson, 1980 **Library of Congress Subject Headings** Library of Congress, 1995 *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office, 2009 *Making African Christianity* Robert J. Houle, 2011-09-16 In *Making African Christianity* author Robert J Houle argues that Africans successfully naturalized Christianity This book examines the long history of the faith among colonial Zulu Christians known as amakholwa in what would become South Africa As it has become clear that Africans are not discarding Christianity a number of scholars have taken up the challenge of understanding why this is the case and how we got to this point Where others have focused on the economic and political potential of conversion this book argues that we need to understand what was embedded within the faith that Africans found so appealing Houle argues that translation did not end with the bible but extended to Christian

theology which needed to be fully appropriated before the faith was secure on the continent For Zulu the religion was not a good fit until converts filled critical gaps in the faith such as how Christianity could account for the active and everyday presence of the ancestral spirits a problem that was true for African converts across the continent in slightly different ways This book offers fresh insight into the history behind the contemporary success of Christianity on the continent and will be welcomed by African historians those interested in the history of colonialism missions southern African and in particular Christianity

The Gender of Piety Wendy Urban-Mead, 2015-07-15 The Gender of Piety is an intimate history of the Brethren in Christ Church in Zimbabwe or BICC as related through six individual life histories that extend from the early colonial years through the first decade after independence Taken together these six lives show how men and women of the BICC experienced and sequenced their piety in different ways Women usually remained tied to the church throughout their lives while men often had a more strained relationship with it Church doctrine was not always flexible enough to accommodate expected masculine gender roles particularly male membership in political and economic institutions or participation in important male communal practices The study is based on more than fifteen years of extensive oral history research supported by archival work in Zimbabwe the United Kingdom and the United States The oral accounts make it clear official versions to the contrary that the church was led by spiritually powerful women and that maleness and mission church notions of piety were often incompatible The life history approach illustrates how the tension of gender roles both within and without the church manifested itself in sometimes unexpected ways for example how a single family could produce both a legendary woman pastor credited with mediating multiple miracles and a man her son who joined the armed wing of the Zimbabwe African People s Union nationalist political party and fought in Zimbabwe s liberation war in the 1970s Investigating the lives of men and women in equal measure The Gender of Piety uses a gendered interpretive lens to analyze the complex relationship between the church and broader social change in this region of southern Africa
