**Handbook of Research on Safe Disposal Methods of Municipal Solid Wastes for a Sustainable Environment** Srivastava, Prateek, Ramteke, Durgaprasad, Bedyal, Ankush Kumar, Gupta, Monika, Sandhu, Jasminder Kaur, 2023-07-14 Managing solid waste is one of the biggest challenges in urban areas around the world. Technologically advanced economies generate vast amounts of organic waste materials many of which are disposed of in landfills. In the future, efficient use of carbon-containing waste and all other waste materials must be increased to reduce the need for virgin raw materials acquisition, including biomass, and reduce carbon emissions to the atmosphere, mitigating climate change. Moreover, expeditious development in information and communications technology (ICT) has made the machines more powerful and efficient, but at the same time, there is a simultaneous decrease in product life, leading to an extensive rise in the annual production of e-waste or electronic waste. Considering the health hazards and environmental implications of e-waste, it has become a global problem that needs serious attention. The *Handbook of Research on Safe Disposal Methods of Municipal Solid Wastes for a Sustainable Environment* covers waste management principles and strategies in different fields and corresponding applications. The book also focuses on the waste management strategies for a sustainable environment that have emerged. Covering key topics such as waste energy and recycling, this premier reference source is an excellent resource for environmentalists, government officials, researchers, scholars, academicians, practitioners, instructors, and students.

**Routledge Handbook of Indian Politics** Atul Kohli, Prerna Singh, 2013-01-04 India's growing economic and socio-political importance on the global stage has triggered an increased interest in the country. This Handbook is a reference guide which surveys the current state of Indian politics and provides a basic understanding of the ways in which the world's largest democracy functions. The Handbook is structured around four main topics: political change, political economy, the diversity of regional development, and the changing role of India in the world. Chapters examine how and why democracy in India put down firm roots but also why the quality of governance offered by India's democracy continues to be low. The acceleration of economic growth since the mid-1980s is discussed, and the Handbook goes on to look at the political and economic changes in selected states and how progress across Indian states continues to be uneven. It concludes by touching on the issue of India's international relations, both in South Asia and the wider world. The Handbook offers an invigorating initiation into the seemingly daunting and complex terrain of Indian politics. It is an invaluable resource for academics, researchers, policy analysts, graduate and undergraduate students studying Indian politics.
