Daugherty, 1997-10-23 Traditionally industrial hygienists and environmental engineers have been responsible for conducting chemical exposure assessments however this task is now becoming a team effort taken on by scientists businessmen and policymakers Assessment of Chemical Exposures Calculation

Methods for Environmental Professionals addresses the expanding scope of exposure assessments in both the workplace and environment. It discusses the basics of gathering data and assessing exposure including how to estimate exposure to chemicals using fundamental chemical engineering concepts. The book opens with a brief discussion on the history of exposure assessments and provides terms and nomenclature needed for communications between various disciplines involved in exposure assessments. The potential impact of chemical exposures on humans, the environment, and communities is discussed in detail. The book also addresses modeling, source, generation, pathway, transport, and receptor impact. With the clear explanations presented in this text, even a novice will be able to practice the art of exposure assessment.

Proceedings of the 10th International Conference on Technical and Vocational Education and Training (ICTVET 2023)

Unung Verawardina, Akrimullah Mubai, 2024-05-14. This is an open access book. Indonesia, as a member of ASEAN, is now facing the ASEAN Economic Community (AEC) 2016. The AEC will support the ASEAN's transformation into a region that guarantees free movement of goods, services, capital, and skilled labor. This will make ASEAN an even more dynamic and competitive region. In preparation for the AEC, the ASEAN member countries have ventured to improve the comparability and connectivity of their TVET systems. As an important component of human resources development, TVET is expected to play an active role in preparing the successful EAC. The implications of technological, economic, and social trends are intervening factors that refine pedagogical strategies leading to the molding of TVET as a more effective platform to catalyze pragmatic approaches to prepare the workforce for the new imperatives of the world of work. Regional integration and harmonization of TVET in the region have become key concerns, and at the same time, the strength of the ASEAN region. They are considered the overarching interventions needed in TVET to address major issues and challenges.

Industrial Hygiene Simplified

Frank R. Spellman, 2006-03-23. Other books on industrial hygiene focus more on classroom use than on practical application and are too large and cumbersome to use on the job. Author Frank Spellman, a certified safety professional and certified hazardous materials manager, fulfills the need for a more field-friendly reference with this simplified book. Using plain English, this book makes the theories and principles of industrial hygiene practical and useful. You'll examine the full spectrum of industrial hygiene needs and find a comprehensive yet concise reference that you can use as a resource for deciphering unfamiliar concepts and practices as an overview of the scope and responsibilities of the field and as a supplemental study guide for the Certified Industrial Hygiene (CIH) exam.
