Reimagining Nigeria's Educational System Joseph A. Balogun, 2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country s low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school s performance This book argues that the poor quality of education and low ranking of Nigeria s educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean
