This sample essay on Child Observation Report provides important aspects of the issue and arguments for and against as well as the needed facts. Read on this essay's introduction, body paragraphs, and conclusion.

As a pupil societal worker, I was required to finish a Child observation over a period of six hebdomads. In order to fix I had to make up one's mind the kid and household I wanted to detect, on this juncture I decided I would detect a kid from a assorted race back land of age 0-12 months. The kid I observed was 12 months from a individual parent household and had three older siblings, the observation took topographic point at her place after I acquired consent from the female parent I started my undertaking. It was indispensable to understand what observation was and I determined that it is an informed manner of sing or looking at something that raises consciousness and increases apprehension.

At the start of the observation I felt really uncomfortable being in unfamiliar district, I felt that it was unjust for me to subject this household to my ain values, rules and bias. Although I felt that my chosen environment in which to detect was the right one, I had great concerns of my deficiency of experience and how the household would react to me as an foreigner in their lives. I was besides really dying about how this procedure would impact me as a parent and my parenting accomplishments or deficiency of it was an intense minute. I questioned whether my function as an perceiver was truly necessary but I had to acquire apprehension of what observation was and meant to me. Trevithick (2012, pg: 169) stated "œ that we learn a batch by detecting others and as such learn what is being transmitted through tone of voice, volume, modulation, position and gestures. "œ

Parent Child Observation Report

As I observed the kid I realised that I learnt a great trade non merely as an perceiver but as a female parent and contemplation on my ain childhood, upbringing and old occupation function. There was a great trade of idea about the emotional impact of the observation on myself as the perceiver. First I learnt the importance of observation, I realised that it was really indispensable to watch and listen than to talk because a great trade is achieved by watching, listening and being soundless. Baldwin (1994, pg 83) stated through observation one is "œ hearing and valuing the voice of the ascertained "œ , and I believed that without words being said there was a connexion between the kid and I. (ability to stay degage to suspend opinion and chorus from engagement, being cognizant of feelings and attitudes evoked, non originating interaction, Precise entering which distinguishes what really happened from what reading.

Second I learnt that observation is a accomplishment that is learnt and acquired with preparation and pattern. Before this undertaking as a household support worker I was required to detect peop

From Reverie to Interpretation Dana Blue, Caron Harrang, 2018-05-08 Bion's identification of reverie as a psychoanalytic concept has drawn attention to a dimension of the analyst's experience with tremendous potential to enrich our interpretive understanding The courage of these authors in revealing their own process of reverie as transformed into the action of psychoanalysis will inspire and foster further investigation of this fruitful yet heretofore infrequently explored area of psychoanalytic discovery

Fostering Independence A.H. Brafman, 2018-04-17 In a series of papers the author addresses the needs of students patients and practitioners of psychodynamic therapies The work of these professionals with children and with adults is discussed from a pragmatic point of view stressing the importance of recognizing the needs and capacities of each individual patient At the same time the author focuses on the professional's role in the clinical interaction emphasizing the need to identify and respect what leads him to the consulting room and what he expects to obtain from this strenuous and demanding type of work

Racial Disproportionality in Child Welfare Marian S Harris, 2014-04-15 The number of children of color entering the child welfare system in the United States is disproportionately high Not only are children of color removed from parental custody and placed in care more often than their white counterparts but they also remain in care longer receive fewer services and have less contact with the caseworkers assigned to them This book identifies the practice and policy changes required to successfully address the unequal treatment of children of color in the child welfare system and their implications for social work education caseworker training and institutional change It critiques many of the existing social welfare acts and policies in terms of their treatment of children of color and it provides best practices for each decision point in the child welfare process and for cultural competency measures and training The text offers extensive measurement instruments that agencies can use to assess and correct institutional racism To improve social work education the book includes several model syllabi for the curriculum and to deepen the discipline's engagement with the issue of institutional racism the text concludes with a discussion of future directions for research and policy

Love the Wild Swan Judith Edwards, 2016-10-04 Love the Wild Swan is the culmination of thirty years of clinical and teaching experience undertaken by child and adolescent psychoanalytic psychotherapist Judith Edwards. Along with new material, the book consists of previously published papers spanning Edwards's entire career which have been carefully selected to chart the journey that every clinician and human being makes from babyhood to adult life. Edwards offers an example of how the evolution of meanings occur and how lifelong learning about the self and the other takes place. The book is divided into four parts with sections on observation, clinical work, teaching, theory, and links between these ideas and ongoing life in the form of the arts through poetry, film, and sculpture. Love the Wild Swan will be of interest to practitioners and clinicians as well as appealing to anyone in the field of mental health who wishes to reflect on the nature of human development and growth.

Conceptualizing our Interpersonal Impressions Gillian Steggle, 2015-02-27 This book clarifies a thorny and knotty problem that has interfered with clear thinking among psychoanalysts for over 70 years. It provides a rigorous examination of the views, theories, and contributions of psychoanalysts since their initial appearance to very mixed acclaim among the experimental psychoanalysts.

who were struggling professionally in war torn London in the early 1940s Extensive details of the data and their analysis have been included so that the scientific basis of the work's conclusion may be understood and appreciated Psychoanalysis is replete with theories but not so much evidence This book however produces evidence for scrutiny and as such provides new evidence based knowledge about psychoanalytic phenomena in everyday life as it is commonly understood and which is not derived from research on the couch The conclusions drawn in the book include the new knowledge that mental representations and internal objects do both occur in everyday life and can co exist

Child and Adolescent Psychoanalysis in a Changing World Catalina Bronstein, Sara Flanders, 2023-07-14 This book applies psychoanalytic insight to work with children and adolescents in a changing often traumatic world Each chapter considers how psychoanalysis can develop and be developed assessing how in the modern world psychological disturbance and psychological trauma is manifest in new unfamiliar ways From new and different social and technological realities to the internet and new sexual discourse each chapter explores how the analyst can hold onto fundamental psychoanalytic understandings of mental functioning address the young patient's or family's need for containment while respecting the importance of drives the varieties of psychosexuality and the powerful impact of anxiety on psychological development In relation to children these authors disclose the potential destructiveness of impingements from adults on a precious vulnerable development This collection is essential reading for all psychoanalysts and psychoanalytic psychotherapists as well as other health and educational professionals working with children and adolescents

Young Child Observation Simonetta M.G. Adamo, Margaret Rustin, 2018-04-24 Observing young children at play is an everyday and often fascinating and pleasurable experience for many of us It also has a great pedigree in the development of psychoanalysis from Freud's observation of his grandson's game with the cotton reel onwards This book describes the practice of observing young children in home and nursery settings in a systematic and non intrusive way in order to expand our understanding of their emotional cognitive and social development It uses a psychoanalytic lens to enrich the meaning of what is seen How do minds and personalities take shape How can we train people to see what is most relevant in helping children to develop The chapters range from classic papers by famous practitioners of an older generation to observations completed in recent years in the UK Europe and the US Observation of this sort has also spread to Latin America India Australia Africa and the Far East The differences and continuities with Infant Observation are the starting point

Sextuplets Linda Root Fortini, Laura Mori, 2018-06-14 This unique and fascinating book carefully traces aspects of the personality of sextuplets which persist from birth onwards The way in which the personal characteristics of both the mother and her children influence the quality of maternal care and relationships with peers is also carefully compared and delineated What is most original and striking about this book is the examination of sibling group relationships and the description of the sextuplets early innate characteristics and interactions in early childhood through both psychological testing and infant observations and then shows how specific characteristics

and interactions persist through early adult life It is essential reading for many professionals involved in child development studies including doctors teachers psychologists psychotherapists and health visitors Jeanne Magagna Phd Consultant Psychotherapist Ellern Mede Centre and former Head of Psychotherapy Services Great Ormond Street Hospital for Children
