Reconstructing a Shattered Egyptian Army Youssef Aboul-Enein,2014-06-15 Central to CDR Youssef Aboul Enein s career has been the mission to introduce America s military leaders to Arabic works of military significance Just like American military leaders who had an obsession for all things Russian during the Cold War in order to understand the Soviets the war on al Qaida and the complex nuances of the Arab Spring demand a deeper comprehension of the Middle East from direct sources The memoirs of General Mohamed Fawzi Egyptian War Minister from 1967 to 1971 were first published in 1984 but his work has not ben translated and remains undiscovered by English speaking readers Many in the United States Armed Services have yet to be introduced to his ideas perspectives and the seeds by which the 1973 Yom Kippur War were laid In this new contribution to his series of essays written for Infantry Journal Aboul Enein has determined to bring to life the military thoughts of this Arab War Minister This book is a joint Infantry Naval Institute Press project that has condensed the entire collection of essays on Fawzi to a single volume to provide future generations of America s military leaders with access

his ideas Fawzi is unique among Arab generals for his scathing critique of his own armed forces and from his critical examination of what went wrong in 1967 he was able to slowly resurrect the Egyptian Armed Forces to a level that enabled Sadat to consider an offensive in 1973 This Egyptian general will provide insights into the level of Soviet cooperation and military aid provided Egypt after the 1967 Six Day War known simply in Arabic by one word al Naksah the setback not to be confused with the 1948 Arab Israeli War known by one word al Nakbah the catastrophe While Fawzi lapses into conspiracy indulges in wishful thinking and employs the language of pan Arabism on occasion much like Soviet military theorists couched their ideas in Marxist Leninist rhetoric this will not stop serious American students of war from recognizing his brilliance about the lessons learned from the crushing defeat of Egyptian arms in the 1967 Six Day War **The U.S.**

Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of

Navigation by Judgment Dan Honig, 2018-03-29 Foreign aid organizations collectively spend hundreds of billions of dollars annually with mixed results Part of the problem in these endeavors lies in their execution In Navigation by Judgment Dan Honig argues that high quality implementation of foreign aid programs often requires contextual information that cannot be seen by those in distant headquarters Drawing on a novel database of over 14,000 discrete development projects across nine aid agencies and eight paired case studies of development projects Honig shows that aid agencies will often benefit from giving field agents the authority to use their own judgments to guide aid delivery This navigation by judgment is particularly valuable when environments are unpredictable and when accomplishing an aid program's goals is hard to accurately measure Highlighting a crucial obstacle for effective global aid Navigation by Judgment shows that the management of aid projects matters for aid effectiveness
