Carney, 2015-01-23 Based on ethnographic fieldwork from Santa Barbara California this book sheds light on the ways that food insecurity prevails in women's experiences of migration from Mexico and Central America to the United States As women grapple with the pervasive conditions of poverty that hinder efforts at getting enough to eat they find few options for alleviating the various forms of suffering that accompany food insecurity Examining how constraints on eating and feeding translate to the uneven distribution of life chances across borders and how food security comes to dominate national policy in the United States this book argues for understanding women's relations to these processes as inherently biopolitical [Food Insecurity on Campus](#) Katharine M. Broton, Clare L. Cady, 2020-05-12 The hidden problem of student hunger on college campuses is real Here's how colleges and universities are addressing it As the price of college continues to rise and the incomes of most Americans stagnate too many college students are going hungry According to researchers approximately half of all undergraduates are food insecure *Food Insecurity on Campus* the first book to describe the problem meets higher education's growing demand to tackle the pressing question How can we end student hunger Essays by a diverse set of authors each working to address food insecurity in higher education describe unique approaches to the topic They also offer insights into the most promising strategies to combat student hunger including utilizing research to raise awareness and enact change creating campus pantries emergency aid programs and meal voucher initiatives to meet immediate needs leveraging public benefits and nonprofit partnerships to provide additional resources changing higher education systems and college cultures to better serve students and drawing on student activism and administrative clout to influence federal state and local policies Arguing that practice and policy are improved when informed by research *Food Insecurity on Campus* combines the power of

Texas Kansas Arizona and Ohio over a thirty year time frame Stokes argues that organized combat between advocate and opponent interest groups is central to explaining why states are not on track to address the climate crisis She tells the political history of our energy institutions explaining how fossil fuel companies and electric utilities have promoted climate denial and delay Stokes further explains the limits of policy feedback theory showing the ways that interest groups drive retrenchment through lobbying public opinion political parties and the courts More than a history of renewable energy policy in modern America Short Circuiting Policy offers a bold new argument about how the policy process works and why seeming victories can turn into losses when the opposition has enough resources to roll back laws

**When Care is Conditional** Dani Carrillo,2024-01-08 From its inception the public safety net in the United States has excluded many people because of their race gendered roles or other factors As a result they must prove their moral worthiness to get resources for themselves and their families In When Care Is Conditional sociologist Dani Carrillo reveals the ramifications of this conditional safety net by focusing on one particularly vulnerable population undocumented immigrants Through in depth interviews with Latinx immigrants in northern California Carrillo examines three circumstances place gender and immigration status that intersect to influence an individual s access to health care food assistance and other benefits She demonstrates that place of residence affects undocumented immigrants ability to get care since more services are available in urban areas where many immigrants cannot afford to live than suburban areas where public transportation is limited She also shows that while both men and women who are undocumented have difficulty obtaining care men often confront more challenges Undocumented women who are pregnant or mothers are eligible for some government safety net programs and rely on informal coethnic networks or a guiding figure a relative friend neighbor or coworker who explains how to get care and makes them feel confident in accessing it Most undocumented men in contrast are not eligible for public programs except in a medical emergency and often lack someone to guide them directly to care Men sometimes steer one another to jobs through worker centers where they may learn about

various services and take advantage of those that increase their employability like English or computer classes but a culture of masculinity leads them to downplay medical problems and seek health care only in a crisis As undocumented immigrants navigate this exclusionary system Carrillo finds that they resist the rhetoric stigmatizing them as lawbreakers Dismissing the importance of papers and highlighting their work ethic they question the fairness of U S immigration policies and challenge ideas about who deserves care Carrillo offers concrete recommendations such as improving labor conditions and reexamining benefit eligibility to increase access to care for not only undocumented immigrants but also people who have been excluded because of their race criminal record gender identity sexual orientation or disability She argues that working with and across populations creates a powerful form of solidarity in advocating for inclusive care When Care Is Conditional provides compelling insights into how safety net and immigration policies intersect to affect people s everyday lives and calls for a cultural shift so that the United States can provide unconditional care for all *Clearinghouse Review* ,2011-11
