developed in a theoretical vacuum divorced from broader international tourism research discourses This collection of essays not only further develops an independent South African tourism perspective but also presents research that is closely tied to international urban tourism research debates In addition this analysis of urban tourism in the South African context enriches the rather Western oriented theories of urban tourism discourse through its emphasis on how urban tourism is evolving in urban Africa Christian M Rogerson is professor of human geography in the School of Geography Archaeology and Environmental Studies University of the Witwatersrand Johannesburg South Africa Gustav Visser is senior lecturer in human geography in the Department of Geography University of the Free State Bloemfontein South Africa
