positions and their personal experiences regarding what energizes or inhibits the performance of their work Until recently presidents in most African countries served as chancellors of public universities identification of those who served as university leaders was largely a political process But much has changed with most countries establishing oversight bodies and the overall governance of higher education institutions divorced from the day to day political processes Trails in Academic and Administrative Leadership in Kenya provides a personal account of the experiences in higher education leadership from an individual whose tenure in leadership straddled the two eras In this book Prof Michieka provides an account of how his early education prepared him for roles in academic and institutional leadership in Kenya The author shares his experiences on the trails he had to navigate as an academic a vice chancellor and a chairperson of university council at a time when universities in Kenya were transiting from extreme government administrative control to a greater degree of operational autonomy Readers will find in this work thought provoking insights on how leaders of higher education institutions in Kenya have had to balance between demands of the political system and the need to safeguard academic traditions in the everyday management of the institutions     *Educafrica* ,1987     *Finance* ,2006     *Enseignement Supérieur en Afrique* Hugh Pilkington,1986     *Chairman's Report to the Council for the Academic Year* Inter-University Council for Higher Education,1971     **Novel Plant Bioresources** Ameenah Gurib-Fakim,2014-04-03 Novel Plant Bioresources Applications in Food Medicine and Cosmetics serves as the definitive source of information on under utilized plant species and fills a key niche in our understanding of the relationship of human beings with under utilized plants By covering applications in food medicine and cosmetics the book has a broad appeal In a climate of growing awareness about the perils of biodiversity loss the world is witnessing an unprecedented interest in novel plants which are increasingly prized for their potential use in aromas dyes foods medicines and cosmetics This book highlights these plants and their uses After an introductory section which sets the scene with an overview of the historical and legislative importance of under utilized plants the main four parts of the book are dedicated to the diverse potential application of novel plant bioresources in Food Medicine Ethnoveterinary Medicine and Cosmetics Examples and contributors are drawn from Africa Europe the USA and Asia The economic social and cultural aspects of under utilized plant species are addressed and the book provides a much needed boost to the on going effort to focus attention on under utilized plant species and conservation initiatives By focusing on novel plants and the agenda for sustainable utilization Novel Plant Bioresources highlights key issues relevant to under utilized plant genetic resources and brings together international scholars on this important topic     **Parents** ,2008-07     **Kenya Yearbook 2013/14** ,2013     *Uganda Confidential* ,1999     *Innovative partnerships* International Livestock Research Institute,2004-01-01     *Education in Kenya* ,1985     *Africa Contemporary Record* Colin Legum,1981     **A Manpower and Training Plan for the Agricultural Research System in Kenya, 1983-1987** National Council for Science and Technology (Kenya),1982
