CONNECTED LEARNING GAME SYSTEM

Getting Started

Get Started in Three Easy Steps

1. Set Up Your LEAPSTER2 Handheld: Insert batteries in the battery compartment on the back of the handheld and close and secure the compartment door. Press the On/Off button and select your country code (code only required the first time). Create a profile for each child who will play with the handheld (it can store up to three profiles—pick a name that is easy to remember and can also be used for online profiles). Select a profile on the Player Select screen.

2. Install the LEAPFROG® Connect Application: Insert the included CD-ROM into your computer and follow the instructions on the screen to install the application. An Internet connection is required.

3. Connect Online to Download Your Included Titles: Turn on the handheld and connect it to your computer using the included USB cable. Choose a player profile in the LEAPSTER2 view of the Connect Application. Follow the on-screen directions to select and download your child's game of choice. Disconnect the handheld from your computer for on-the-go play!

If you already have the LEAPFROG Connect Application installed for another device, you will still need to insert the included CD-ROM to install your LEAPSTER2 software. If the included CD-ROM doesn't work or is lost, go to leapfrog.com/gaming/leapster2 to download the application.

Your LEAPSTER2 Handheld

FOUR WAYS to Play!

The Main Menu on the LEAPSTER2 handheld displays four icons for each of the ways to play. Select any activity from the Main Menu to access the following games and activities.

- 1 Cartridge Games**
Play any LEAPSTER game by inserting a LEAPSTER cartridge into the slot.
- 2 Game Downloads**
Access included title games downloaded or bonus game downloads.
- 3 Connect**
Connect your LEAPSTER2 handheld to your computer to download games and see the rewards that you've earned. (LEAPFROG® Connect Application and an Internet connection required. Install application by inserting the included CD.)
- 4 Creativity Castle**
Create art masterpieces that can be uploaded to the online art studio for further embellishment!

Images in this guide represent gameplay only, not actual screen position.

Engineering Play Mizuko Ito, 2012-02-10 How the influential industry that produced such popular games as Oregon

Trail and KidPix emerged from experimental efforts to use computers as tools in child centered learning Today computers are part of kids everyday lives used both for play and for learning We envy children s natural affinity for computers the ease with which they click in and out of digital worlds Thirty years ago however the computer belonged almost exclusively to business the military and academia In *Engineering Play* Mizuko Ito describes the transformation of the computer from a tool associated with adults and work to one linked to children learning and play Ito gives an account of a pivotal period in the 1980s and 1990s which saw the rise of a new category of consumer software designed specifically for elementary school aged children Edutainment software sought to blend various educational philosophies with interactive gaming and entertainment and included such titles as Number Munchers Oregon Trail KidPix and Where in the World Is Carmen Sandiego The children s software boom and the bust that followed says Ito can be seen as a microcosm of the negotiations surrounding new technology children and education The story she tells is both a testimonial to the transformative power of innovation and a cautionary tale about its limitations

Gender, Age, and Digital Games in the Domestic Context Alison Harvey, 2015-03-27 Western digital game play has shifted in important ways over the last decade with a plethora of personal devices affording a range of increasingly diverse play experiences Despite the celebration of a more inclusive environment of digital game play very little grounded research has been devoted to the examination of familial play and the domestication of digital games as opposed to evolving public and educational contexts This book is the first study to provide a situated investigation of the site of family play the shared spaces and private places of gameplay within the domestic sphere It carries out an empirically grounded and critical analysis of what marketing and sales discourses about shifts in the digital games audience actually look like in the space of the home as well as the social and cultural role these ludic technologies take in the everyday practices of the family in the domestic context It examines the material realities of video game technologies in the home including time management and spatial organization as well as the discursive role these devices play in discussions of technological competence and its complex relationship to age generational differences and gender performance Harvey s interdisciplinary approach and innovative methodology will hold great critical appeal for those studying digital culture children s media and feminist studies of new media as well as critical theories of technology and leisure and sport theory
