Cultural Mediation in Language Learning and Teaching Geneviève Zarate,Council of Europe,European Centre for Modern Languages,2004-01-01 This project attempts to tackle several challenges to experience the variety of different teaching cultures as a source of innovation rather than as an obstacle to adopt a pluridisciplinary approach by introducing references taken from the social sciences in order to develop reflection on the role of languages in social cohesion to try and provide answers to a question hitherto rarely raised in the didactics of languages and cultures namely the place of cultural mediation itself CoE website **Defending French in Flanders, 1873-1974** David J. Hensley,2023-12-28 This book examines the efforts of the French speaking minority in Flanders Belgium to maintain a legal and social presence of the French language in Flemish public life Chronologically the study is bookended by two developments almost exactly a century apart In 1873 the first laws were passed which required the use of Dutch in some aspects of public administration in Flanders challenging the de facto use of French among the Flemish ruling class One hundred and one years later the last French daily newspaper in Flanders collapsed marking the end of a once vibrant French language public sphere in Flanders The author contends that the methods and arguments by which French speakers defended the role of French in Flemish public life changed along with the social and political situation of this minority As the Flemish movement grew over the course of the twentieth century French speakers appeals to the free choice of language lost traction and they put forward claims that they represented an ethnolinguistic minority who deserved protection for their mother tongue Providing new insights for scholars of European history and in conversation with the literature on liberalism national identity and Francophonie this book demonstrates how the debate over the role of French in Flanders was at the center of Belgium s ethnolinguistic conflict the repercussions of which continue to be felt to this day *Contact Linguistics* Carol Myers-Scotton,2002 Contact linguistics provides an account of contact outcome theories including the author s own It has coursebook potential for advanced undergraduates
