Teaching and Learning Mathematics Online James P. Howard, II, John F. Beyers, 2020-05-10 Online education has become a major component of higher education worldwide In mathematics and statistics courses there exists a number of challenges that are unique to the teaching and learning of mathematics and statistics in an online environment These challenges are deeply connected to already existing difficulties related to math anxiety conceptual understanding of mathematical ideas communicating mathematically and the appropriate use of technology Teaching and Learning Mathematics Online bridges these issues by presenting meaningful and practical solutions for teaching mathematics and statistics online It focuses on the problems observed by mathematics instructors currently working in the field who strive to hone their craft and share best practices with our professional

community The book provides a set of standard practices improving the quality of online teaching and the learning of mathematics Instructors will benefit from learning new techniques and approaches to delivering content Features Based on the experiences of working educators in the field Assimilates the latest technology developments for interactive distance education Focuses on mathematical education for developing early mathematics courses Mythos and Voice Charles Underwood, 2018-09-15 This book focuses on mythos and voice in the Odyssey to illuminate its characters journeys from social displacement through discovery and recovery Mythos and Voice approaches the Odyssey as a narrative of displacement a narrative that maps the social displacement of its characters explores the cognitive consequences of that displacement and embodies the variable strategies by which those characters learn to resolve their displacement It is a narrative that also employs and elaborates the characters own narratives of displacement as genres enabling them to resist externally imposed definitions of their situations and to redefine and ultimately reclaim their own place in the world not as it was before their displacement but as it must be given the new post heroic world in which they now live The focus on mythos and voice enables readers to approach the study of learning and the acquisition of personal agency in the context of a hazardous world the cultural world that Odysseus navigates in Homer s epic poem With this focus the author examines interactive processes of human learning in a specific cultural context the epic universe of Homeric narrative By ethnographically examining the learning contexts portrayed in Homer s epic Mythos and Voice elucidates an Archaic Greek view of human learning through examples that show how the author s of the Odyssey envisioned and dramatized displacement learning and agency in the epic work The book focuses on aspects of Homeric cognition as they cumulatively develop among key characters within the Odyssey s inventive narrative structure In this way Mythos and Voice describes a culturally specific theory of learning and development a perspective that proved compelling in the pre classical and classical Greek world even as it does to readers now **Disabled USA.** ,1987 **Learning in the Age of Digital Reason** Petar Jandrić, 2017-07-17 Learning in the Age of Digital Reason contains 16 in depth dialogues between Petar Jandrić and leading scholars and practitioners in diverse fields of history philosophy media theory education practice activism and arts The book creates a postdisciplinary snapshot of our reality and the ways we experience that reality at the moment here and now It historicises our current views to human learning and experiments with collective knowledge making and the relationships between theory and practice It stands firmly at the side of the weak and the oppressed and aims at critical emancipation Learning in the Age of Digital Reason is playful and serious It addresses important issues of our times and avoids the omnipresent academic sin of pretentiousness thus making an important statement research and education can be sexy Interlocutors presented in the book in order of appearance Larry Cuban Andrew Feenberg Michael Adrian Peters Fred Turner Richard Barbrook McKenzie Wark Henry Giroux Peter McLaren Si n Bayne Howard Rheingold Astra Taylor Marcell Mars Tomislav Medak Ana Kuzmani Paul Levinson Kathy Rae Huffman Ana Peraica Dmitry Vilensky Chto Delat Christine

Sinclair and Hamish Mcleod Knowing, Teaching, and Learning History Peter N. Stearns, Peter Seixas, Sam Wineburg, 2000-09 This four part volume identifies the problems and issues in late 20th and early 21st century history education working towards an understanding of this evolving field It aims to give both students and teachers insights into the best way of developing historical understanding in pupils *Inclusion is Dead* Peter Imray, Andrew Colley, 2017-05-18 Inclusion is Dead is a provocative polemic against the widely held notion that inclusion for all children and young people with SEN is both possible and desirable For those with severe learning difficulties SLD and profound and multiple learning difficulties PMLD the authors argue it is neither Imray and Colley assert that the dominance of inclusion has meant that there has been no serious attempt to look at the educational difficulties faced by learners with PMLD and SLD As a vision of egalitarianism and equality for all they say inclusion is dead The authors controversially believe that unless education changes it will remain as a disabling institution that does the exact opposite of its intention The book presents the argument that theorists of inclusion have failed to provide practical solutions on how inclusion can be achieved when SLD and PMLD learners are involved as well as discussing the drawbacks of the inclusion for all argument With up to date references throughout *Inclusion is Dead* will be an insightful read for teachers and SENCO trainers as well as postgraduates and undergraduates studying courses on politics philosophy and society Contemporary Global Perspectives on Cooperative Learning Robyn M. Gillies, Barbara Millis, Neil Davidson, 2023-03-29 This volume captures contemporary global developments in cooperative learning CL across varied educational contexts levels and disciplines Cooperative learning is widely recognized as a pedagogical practice that promotes socialization and learning among students from kindergarten to tertiary education and across different subject domains With chapters from contributors throughout the Global North and South this comprehensive volume offers a wide ranging perspective and addresses a range of cooperative learning pedagogies including relational online and peer learning STAD the Jigsaw model and dialogic talk The chapters draw on novel empirical research and theory to highlight best practices in cooperative learning whilst also considering the challenges limitations and factors which drive or inhibit learner engagement and success Consistent attention is given to the pivotal role of the educator in implementing cooperative learning to maximum benefit to enhance students affective social cognitive and metacognitive learning Thus this book will appeal to scholars and researchers across a variety of subjects and will provide an additional benefit to in service and pre service educators who already practice cooperative learning in their classrooms as well as those who are interested in implementing the model Edsurge 50 States Project Mary Jo Madda, 2015-02-10 Innovation is alive in American schools In this special collection compiled by EdSurge educators from all 50 US states along with Puerto Rico and the District of Columbia share stories of how they are using technology to inspire students and drive learning in their classrooms **Becoming a Whole Language School** Lois Bridges Bird, 1989 Preparing Teachers for Deeper Learning Linda Darling-Hammond, Jeannie Oakes, 2021-02-08 *Preparing Teachers for Deeper Learning* answers an urgent call for

teachers who educate children from diverse backgrounds to meet the demands of a changing world In today s knowledge economy teachers must prioritize problem solving ability adaptability critical thinking and the development of interpersonal and collaborative skills over rote memorization and the passive transmission of knowledge Authors Linda Darling Hammond and Jeannie Oakes and their colleagues examine what this means for teacher preparation and showcase the work of programs that are educating for deeper learning equity and social justice Guided by the growing knowledge base in the science of learning and development the book examines teacher preparation programs at Alverno College Bank Street College of Education High Tech High s Intern Program Montclair State University San Francisco Teacher Residency Trinity University and University of Colorado Denver These seven programs share a common understanding of how people learn that shape similar innovative practices With vivid examples of teaching for deeper learning in coursework and classrooms interviews with faculty school partners and novice teachers surveys of teacher candidates and graduates and analyses of curriculum and practices Preparing Teachers for Deeper Learning depicts transformative forms of teaching and teacher preparation that honor and expand all students abilities knowledges and experiences and reaffirm the promise of educating for a better world
