sets of instructions that are repeated often so you only have to push one button Excel has had issues with making this time saving tool work especially in the 2007 version According to NotebookReview com The macro recording errors that plagued Excel 2007 have been repaired In the old version including shapes or charts in your macro recording would leave the final file with huge function gaps or worse leave a blank recording altogether Definitely use Excel 2010 for a macro heavy Excel use Buy a copy to keep reading
