Implementing Mobile Language Learning Technologies in Japan Steve McCarty, Hiroyuki Obari, Takeshi Sato, 2016-10-06

This book explores theoretical and practical aspects of implementing mobile language learning in university classrooms for English as a Foreign Language in Japan. The technologies utilized such as smartphones, iPads, and Wi-Fi integrate students' hand-held devices into the campus network infrastructure. The pedagogical aims of ubiquitous mobile learning further incorporate social media, blended learning, and flipped classroom approaches into the curriculum. Chapter 1 defines mobile language learning within dimensions of e-learning and technology-assisted language learning prior to tracing the development of mobile learning in Japan. Chapter 2 documents the sociocultural theory underpinning the author's humanistic approach to implementation of mobile technologies. The sociocultural pedagogy represents a global consensus of leading educators that also recognizes the agency of Asian learners and brings out their capability for autonomous learning. Case studies of universities, large and small, public and private, are organized similarly in Chapters 3 to 5. Institutional, pedagogical, and technological context sections are followed by detailed content on the implementation of initiatives, assessment of effectiveness, and recommendations for other institutions. Distinct from a collection of papers, this monograph tells a story in brief book length about theorizing and realizing mobile language learning, describing pioneering and original initiatives of importance to practitioners in other educational contexts.

In recent years, the traditional way of teaching has been substituted by online teaching. This book discusses the implementation of digital technologies in primary, secondary, and tertiary education that facilitates the learning and teaching process and creates a student-centered environment. Covering topics such as digital literacy, student engagement, and pedagogy, this reference work is an essential resource for practitioners, scholars, administrators, policymakers, researchers, academicians, instructors, and students.

Lectures on the Revelation of St. John Charles John Vaughan, 1863 **Fichte in Berlin** Matthew

Nini, 2024-05-07 When the celebrated German philosopher Johann Gottlieb Fichte lost his position at the University of Jena and moved to Berlin, it looked as if his career was over. In 1799, Berlin had no university, and Fichte was consigned to lecturing

in his home In Fichte in Berlin Matthew Nini breaks with scholarly consensus arguing it was there that Fichte finally reached maturity and the only way to understand Fichte's mature philosophy is to perform it for oneself The book focuses on the philosopher's 1804 lectures on the Wissenschaftslehre an untranslatable neologism for his theories on the pursuit of insight claiming that they are one of the most exemplary versions of the philosophical project that Fichte reconfigured some seventeen times throughout his life While the 1804 lectures offer a more robust approach they remain faithful to the insight at the heart of the original philosophy Fichte's work always emphasized the practical over the theoretical and his 1804 work goes even further to think with Fichte is to bring one's own philosophy to life Nini guides the reader step by step through the complex arguments Fichte made in 1804 and goes on to examine some of his other works produced in their wake arguing that Fichte's output from 1804 to 1806 his first Berlin period forms an organic whole Fichte in Berlin is not only an introduction to Fichte's later philosophy but also an original philosophical work that makes a unique contribution to the study of German Idealism *Routledge Dictionnaire Technique Anglais* Yves Arden,1994 The French English volume of this highly acclaimed set consists of some 100 000 keywords in both French and English drawn from the whole range of modern applied science and technical terminology Covers over 70 subject areas from engineering and *The Athenæum* ,1850

Macmillan's Magazine ,1860 **Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy** Francesca Helm,Linda Bradley,Marta Guarda,Sylvie Thouësny,2015-12-02 The theme of the conference this year was Critical CALL drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics The term critical has many possible interpretations and as Pennycook 2001 outlines has many concerns It was from these that we decided on the conference theme in particular the notion that we should question the assumptions that lie at the basis of our praxis ideas that have become naturalized and are not called into question Over 200 presentations were delivered in 68 different sessions both in English and Italian on topics related specifically to the theme and also more general CALL topics 94 of these were submitted as extended papers and appear in this volume of proceedings Annual Register University of Chicago,1894
