GWB Leeds Lucy Moore, Nicola Pullan, 2015-11-02 The First World War claimed over 995 000 British lives and its legacy continues to be remembered today Great War Britain Leeds offers an intimate portrayal of the city and its people living in the shadow of the war to end all wars It describes the local reaction to the outbreak of war the experience of

individuals who enlisted the changing face of industry and related unrest the work of the many hospitals in the area the effect of the conflict on children the women who defied convention to play a vital role on the home front and how the city and its people coped with the transition to life in peacetime once more The Great War story of Leeds is told through the voices of those who were there and is vividly illustrated with images from the archives of Leeds Museums Galleries Rebel Girls Jill Liddington,2015-09-03 Rejecting the deadening conventions of their Victorian elders the rebel girls demanded new freedoms and new rights They took their suffrage message out to the remotest Yorkshire dales and fishing harbours to win Edwardian hearts and minds 16 year old Huddersfield weaver Dora Thewlis on arrest was catapulted onto the tabloid front pages as Baby Suffragette Her life was transformed Dancer Lilian Lenton waited till her twenty first birthday then determined to burn two buildings a week until the Liberal government granted women the vote Rebel Girls shows how this daring campaigning shifted from community suffragettes to militant mavericks **Historic England: Hull** Paul Chrystal,2017-08-15 An illustrated history one of England s most fascinating cities Hull **The Directory of Museums and Special Collections in the UK** Peter Dale,2023-05-31 Compiled with the assistance of the Museums Association this important directory incorporates over 2 100 museums almost double the number of inclusions in the 1st edition It covers all types including collections of artefacts The index contains over 3 000 subjects It is designed particularly to uncover those holdings that are more unusual and less well known The directory covers all subjects except living organisms An indispensable reference source for the library and an ideal companion for researcher or enthusiast alike Brands and Branding Geographies Andy Pike,2011-01-01 The volume edited by Andy Pike includes contributions by several leading figures in the study of brands places and place branding However this is not what makes the book a welcome addition to the literature What really makes the book interesting is actually the brave attempt to deal with an intrinsically difficult topic one that is rarely if ever explored the relationship between brands and branding with the places in and around which these operate Several facets of this relationship are explored in the book The book is introduced nicely by Andy Pike in a chapter that sets the scene and clarifies the intentions of the book I am glad the first book to handle these issues is on my shelves Mihalís Kavaratzis Regional Studies An incomparably rich trove of work on the multifarious and contradictory entanglements between space place and brand The volume helps us understand how and why places of origin play an ever greater role in the marketing of commodities even while corporations continue to seek placelessness in pursuit of the bottom line And it illuminates how and why entrepreneurial governments seeking to enhance global competitiveness increasingly turn to place branding at the neighborhood urban and national scale even while launching rounds of restructuring that undercut the authenticity and viability of local identities A valuable and accessible contribution to the urban studies and cultural studies literature Miriam Greenberg University of California Santa Cruz US An important effort to pull together multidisciplinary research on the spatial dimensions of brands and branding in an international context John A Quelch Harvard Business School US Despite

overstated claims of their global homogeneity ubiquity and contribution to flattening spatial differences the geographies of brands and branding actually do matter This vibrant collection provides a comprehensive reference point for the emergent area of brand and branding geographies in a multi disciplinary and international context The eminent contributors leaders in their respective fields present critical reflections and synthesis of a range of conceptual and theoretical frameworks and methodological approaches incorporating market research oral history discourse and visual analyses They reflect upon the politics and limits of brand and branding geographies and map out future research directions The book will prove a fascinating and illuminating read for academics researchers students practitioners and policy makers focusing on the spatial dimensions of brands and branding British Indian Picture Postcards in Bengaluru Emily Stevenson,2023-12-18 Combining ethnographic and archival research this book examines the lives of colonial period postcards and reveals how they become objects of contemporary historical imagination in India Picture postcards were circulated around the world in their billions in the early twentieth century and remained until the advent of social media unmatched as the primary means of sharing images alongside personal messages This book based on original research in Bengaluru shows that their lives stretch from their initial production and consumption in the early 1900s into the present where they act as visual and material mediators in postcolonial productions of history locality and heritage against a backdrop of intense urban change The book will be of interest to photographic historians visual anthropologists and art historians **Postcards** Keith Conlon,Ron Kandelaars,2001 Every Sunday evening hundreds of thousands of South Australians tune in at five thirty to watch Channel Nine s Postcards program The team led by Mr South Australia Keith Conlon showcases the state s remarkable places and characters **The Spectacle of Women** Lisa Tickner,1988-03-31 Too artistic for political history too political for the history of art the visual history of the campaign for women s suffrage in Britain has long been neglected In this comprehensive and pathbreaking study Lisa Tickner discusses and illustrates the suffragist use of spectacle the design of banners posters and postcards the orchestration of mass demonstrations in an unprecedented propaganda campaign It's All a Game Tristan Donovan,2017-05-30 A timely book a wonderfully entertaining trip around the board through 4 000 years of game history The Wall Street Journal Board games have been with us even longer than the written word But what is it about this pastime that continues to captivate us well into the age of smartphones and instant gratification In It s All a Game Tristan Donovan British journalist and author of Replay The History of Video Games opens the box on the incredible and often surprising history and psychology of board games He traces the evolution of the game across cultures time periods and continents from the paranoid Chicago toy genius behind classics like Operation and Mouse Trap to the role of Monopoly in helping prisoners of war escape the Nazis and even the scientific use of board games today to teach artificial intelligence how to reason and how to win With these compelling stories and characters Donovan ultimately reveals why board games from chess to Monopoly to Risk and more have captured hearts and minds all over the world for generations Splendid A

quick and breezy read it doesn't just tell the fascinating stories of the often struggling individuals who created our favorite games. It also manages to convey the entire sweep of board game history from the earliest forms of checkers to modern day surprise hits like Settlers of Catan. World War I in Central and Eastern Europe Judith Devlin, John Paul Newman, Maria Falina, 2018-07-30 In the English language World War I has largely been analysed and understood through the lens of the Western Front. This book addresses this imbalance by examining the war in Eastern and Central Europe. The historiography of the war in the West has increasingly focused on the experience of ordinary soldiers and civilians, the relationships between them, and the impact of war at the time and subsequently. This book takes up these themes and engages with the approaches and conclusions of historians of the Western front, examines wartime experiences and the memory of war in the East. Analysing soldiers' letters and diaries to discover the nature and impact of displacement and refugee status on memory, this volume offers a basis for comparison between experiences in these two areas. It also provides material for intra-regional comparisons that are still missing from the current research. Was the war in the East wholly other? Were soldiers in this region as alienated as those in the West? Did they see themselves as citizens, and was there continuity between their pre-war or civilian and military identities? And if in the Eastern context these identities were fundamentally challenged, was it the experience of war itself or its consequences in the shape of imprisonment and displacement and changing borders that mattered most? How did soldiers and citizens in this region experience and react to the traumas and upheavals of war and with what consequences for the post-war era? In seeking to answer these questions and others, this volume significantly adds to our understanding of World War I as experienced in Central and Eastern Europe.

The Progressive Pilgrim Alan Burnett, 2025-06-10 The Progressive Pilgrim is wide-ranging in its scope. It is both a guide and a gazetteer and a research and resources digest. It covers radical people and places as well as political action and activities in the past as well as the present. Dr Alan Burnett says: 'My main motivation with this book is to share my version of progressive radicalism, my admiration for radical men and women past and present, my knowledge of the geography of Britain where radical action has taken place, my enthusiasm for research that can assist in progressive campaigning and policymaking, and some of the films, songs, and books that I love. My hope is that reading this book will foster a sense of pride in what has been achieved by British progressives, radicals, and a determination to continue a tradition that will make Britain a better country in which to be born, grow up, be educated, live, work, play, retire, die, and leave for those coming after us.'

Words and the First World War Julian Walker, 2017-12-28 An illustrated analytical study. Words and the First World War considers the situation at home, at war, and under categories such as race, gender, and class to give a many-sided picture of language used during the conflict. The Spectator First World War expert Julian Walker looks at how the conflict shaped English and its

relationship with other languages He considers language in relation to mediation and authenticity as well as the limitations and potential of different kinds of verbal communication Walker also examines How language changed and why changed language was used in communications Language used at the Front and how the language of the war was commercially exploited on the Home Front The relationship between language soldiers and class The idea of the indescribability of the war and the linguistic codes used to convey the experience Languages of the front became linguistic souvenirs of the war abandoned by soldiers but taken up by academics memoir writers and commentators leaving an indelible mark on the words we use even today

Art and War Laura Brandon, 2012-11-25 This is a truly encyclopedic survey of artists responses both official and personal to the horrors of war Art and War reveals the sheer diversity of artists portrayals of this most devastating aspect of the human condition from the heroic paintings of Benjamin West and John Singer Sargent to brutal and iconic works by artists from Goya to Picasso and the equally oppositional work of Leon Golub Nancy Spero and others who reacted with fury to the Vietnam War Laura Brandon pays particular attention to work produced in response to World War I and World War II as well as to more recent art and memorial work by artists as diverse as Barbara Kruger Alfredo Jarr and Maya Lin She looks finally to the reactions of contemporary artists such as Langlands and Bell to the US invasion in 2001 of Afghanistan and the War on Terror

Northern Canals Lancaster, Ulverston, Carlisle and the Pennine Waterways Through Time Ray Shill, 2014-07-15 This fascinating selection of photographs traces some of the many ways in which the Northern Canals have changed and developed over the last century

1914 Matthew Richardson, 2013-10-02 The opening battles of WWI s Western Front and the world changing advances in warfare are reexamined through eyewitness accounts from the trenches The 1914 campaign of World War I sparked by the German Army s invasion of Luxembourg Belgium and France marked a watershed in military history Advances in weaponry forced both sides to take to the earth in what became a grueling standoff of trench warfare In a bizarre mix of ancient and modern some of the last cavalry charges took place in the same theatre in which armoured cars motorcycles and aeroplanes were beginning to make their presence felt These dramatic developments were recorded in graphic detail by soldiers who were there in the trenches themselves Now with the benefit of these firsthand accounts historian Matthew Richardson offers a thoroughgoing reassessment of the 1914 campaign His vivid narrative emphasises the perspective of the private soldiers and junior officers of the British Army and includes full colour plates containing over one hundred illustrations 1914 Voices from the Battlefields was a Britain At War Magazine Book of the Month in February 2014
