Hey! Listen! Andrew S. Latham, 2024-02-01 How does analyzing video games as hypertexts expand the landscape of research for video game rhetoricians and games studies scholars This is the first book to focus on how hypertext rhetoric impacts the five canons of rhetoric and to apply that hypertext rhetoric to the study of video games It also explores how ludonarrative agency is seized by players seeking to express themselves in ways that game makers did not necessarily intend when making the games that players around the world enjoy This book takes inspiration from The Legend of Zelda a series which players all over the world have spent decades deconstructing through online playthroughs speedruns and glitch hunts Through these playthroughs players demonstrate their ability to craft their own agency independent of the objectives built by the makers of these games creating new rhetorical situations worthy of analysis and consideration *Zelda* Nicolas Courcier, Mehdi El Kanafi, 2019-02-19 A collector's book to learn more about the world of one of the most legendary video games To celebrate the 30th anniversary of The Legend of Zelda Third Editions wanted to pay respect to this legendary saga one of the most prestigious in the gaming world This work chronicles every game of the series from the first episode to the latest Hyrule Warriors on 3DS deciphering the whole universe using deep analysis and reflection Dive into this unique publication presented as an ancient tome which will allow adventure fans to finally re discover the amazing Legend of Zelda Immerse yourself in this unique collection presented in the form of an old grimoire which will delight all adventure lovers to finally discover the fabulous legend of Zelda EXTRACT In the kingdom of Hyrule a legend has been passed down since the beginning of time A mysterious artifact known as the Triforce symbolized by three golden triangles arranged to form a fourth triangle is said to possess mystical powers It is hardly surprising that this object has been coveted by many power hungry men over the centuries One day the evil Ganon the Prince of Darkness whose ambition is to subjugate the entire world to his will sends his armies to attack the peaceful kingdom He manages to capture one of the fragments of the Triforce the triangle of power Daughter of the king of Hyrule Princess Zelda is terrified at the prospect of seeing Ganon's armies swarming over

the world She too seizes a fragment of the Triforce the triangle of wisdom and chooses to break it into eight pieces which she then scatters across the world hiding them to prevent Ganon from ever acquiring them She then orders her faithful nursemaid Impa to go forth and seek a warrior brave enough to challenge Ganon As Impa roams the kingdom of Hyrule in the hope of finding a savior Ganon learns of Zelda s plans and has her locked up before sending his men to track down the nursemaid Surrounded by these ruthless creatures Impa is saved by a young boy named Link at the very moment when it appears that all is lost As unbelievable as it may seem Link has been chosen by the golden triangle of courage and thus holds a part of the Triforce himself Convinced that she has finally found the one who will save the kingdom Impa hurries to tell him her story Link accepts his mission to rescue Zelda without hesitation Before confronting Ganon however he will have to gather the eight fragments of the triangle of wisdom which are his only hope of gaining entry to the dungeon deep beneath Death Mountain where the Prince of Darkness hides His quest has only just begun

ABOUT THE AUTHORS Nicolas Courcier and Mehdi El Kanafi Fascinated by print media since childhood Nicolas Courcier and Mehdi El Kanafi wasted no time in launching their first magazine Console Syndrome in 2004 After five issues with distribution limited to the Toulouse region of France they decided to found a publishing house under the same name One year later their small business was acquired by another leading publisher of works about video games In their four years in the world of publishing Nicolas and Mehdi published more than twenty works on major video game series and wrote several of those works themselves Metal Gear Solid Hideo Kojima s Magnum Opus Resident Evil Of Zombies and Men and The Legend of Final Fantasy VII and IX Since 2015 they have continued their editorial focus on analyzing major video game series at a new publishing house that they founded together

The Legend of Zelda and Philosophy Luke Cuddy, 2025-10-14 Unlock the Secrets of Hyrule with the Power of Philosophy A groundbreaking and critically acclaimed masterpiece The Legend of Zelda was released in Japan in 1986 That first entry spawned one of the greatest series in gaming history leading up to Echoes of Wisdom in 2024 Link s quest to vanquish evil unite the Triforce and restore peace to Hyrule is at the heart of most Zelda games but it s not just the story that has captivated fans countless elements of this beloved series from innovative combat in Ocarina of Time to the unparalleled exploration of Breath of the Wild are deeply immersive and engaging The Zelda series is about more than adventure it s a world brimming with deep philosophical questions Spanning fate and free will to ethics and identity the series invites players to ponder profound ideas while battling monsters and solving puzzles Zelda and Philosophy takes you on a quest through these thought provoking themes offering fresh insights into your favorite

games Whether you re a lifelong fan or new to the series this book will make you see Hyrule in a whole new way Written in an easy to read style *Zelda and Philosophy* explores questions such as Can Link have free will if he is always destined to defeat Ganon dorf How does the Triforce illustrate the virtues of Confucius and Aristotle Are Bokoblins people And if so is it wrong to kill them and other monsters in Hyrule Does Link ever get bored with rescuing Zelda and restoring peace to the land Why are Zelda games so immersive and fun to play If the Lens of Truth is used to identify the contents of Treasure Chests does that count as cheating Perfect for gamers philosophers and anyone who loves thinking about the deeper meaning of their favorite adventures *Zelda and Philosophy* is as immersive as the games themselves once you start reading you won t want to stop

The Fundamentals of Video Game Literacy Ryan Zhao,2025-04-16 This book posits a novel framework for sense making and meaning making in the play of video games Extending a modern process oriented audience inclusive philosophy of artistic meaning generation this book grapples with the question of how to personally and critically examine video games as artistic artifacts that do not have set predetermined standardized forms until live play is enacted The resulting artistic product live gameplay expresses both the game s developers and its players This book argues that players hold three separate concurrent perspectives during play the embodied avatar within the simulated space the role playing participant in the narrative fantasy and the external strategist manipulating the game s software affordances The exciting dynamics that arise from live gameplay are the result of the tensions and harmonies between these three parallel layers of play Video games are systems with designed behaviors capable of a great diversity of instantiated expressions Players are brought into that system of instantiated generation to produce truly emergent and personal gameplay As such players directly impact the shape and form of the gameplay artifact itself This creates a relationship between the art the player and its meaning radically different from all previous art forms This book builds around this central premise with examinations of related subjects pertaining to video game meaning making such as the ways in which video games facilitate play that is expressive of their players and the ways in which it is appropriate to compare and contextualize the differences in players instantiated play activities These subjects are designed to give readers an in depth understanding of the dynamics of gameplay in order to facilitate richer more meaningful encounters with video games as cultural artifacts This book Provides a useful framework for enriching players experiences with video game play Helps players identify and distinguish aspects of their own and game developers expression in gameplay Posits a novel framework examining the role of player as embodied avatar role player and strategist Gives players appropriate questions to better interrogate the generation of meaning from within and surrounding the system of gameplay
