Re-Reading Zola and Worldwide Naturalism Marie-Sophie Armstrong, Riikka Rossi, Carolyn Snipes-Hoyt, 2013-07-26 Re Reading Zola and Worldwide Naturalism continues the discussion of mile Zola and French

naturalism with examinations of unexplored areas of the founding father's project and legacy. In addition to offering essays on Zola's lesser-known naturalist contemporaries, the volume extends the investigation of the naturalist literary current to include areas of Europe outside France as well as the Americas and Asia, tracking its persistence in various forms through the twentieth century and into the twenty-first. The authors pay particular attention to the ways naturalism was conceived and then received, including in other channels, undergoing transformations in new social conditions and creating other versions of the basic precepts. This work features multidisciplinary and comparative approaches to the study of naturalism, paying tribute to Anna Gural Migdal, a Professor of French Literature and Film Studies at the University of Alberta in Canada who specializes in the visual aspect of Zola's Rougon-Macquart novels and the transfer of these strategies to naturalist film. She has been a leader in the field of Zola and naturalism in her role as president of the AIZEN for almost fifteen of its twenty years of existence.

Light and Nature in Late 19th Century Nordic Art and Literature Neil Kent, 1990 [Historical Dictionary of Scandinavian Cinema](#) John Sundholm, Isak Thorsen, Lars Gustaf Andersson, 2012-09-20. Although relatively small, the northern countries of Scandinavia have made a disproportionately large contribution to world cinema. Indeed, some of their films are among the best known of all times, including *The Seventh Seal*, *Dancer in the Dark*, and *The Girl with the Dragon Tattoo*. And Scandinavian directors are also among the best known, just to mention Ingmar Bergman and Lars von Trier. But there is much more to the cinema of Denmark, Norway, Sweden, Finland, and Iceland than that, and this book shows us what they have been accomplishing over more than a century, from the beginnings of cinema until the present. The *Historical Dictionary of Scandinavian Cinema* shows just how long and busy this history has been, in the chronology starting in 1896. The introduction then describes the situation in each one of the component countries, all of which approached and developed the field in a similar but also slightly different manner. The dictionary section, with over 400 substantial entries, looks at the situation in greater detail, with over 400 substantial entries on major actors, directors, and others, significant films, various genres, and themes and subjects such as animation, ethnicity, migration, and censorship. Given its contribution to world cinema, it is good to finally have an encyclopedia like this, which can meet the interests of the scholar and researcher but also the movie fan.
