

Attaching the carrying strap

Attach the carrying strap to the eyelets (25).

Remove the metal hooks from the carrying strap and hook them into the eyelets on the camera.

Attention: Make sure that the carrying strap is inserted to the second part of the metal hooks completely before you push the securing loops over them (see pictures above).

A small pocket for 2 spare batteries is fixed to the carrying strap, which will also accept the flash contact cover, when required.

The small pocket should be attached in such a manner so as to prevent the snap-button from being opened accidentally; for instance where the strap is two-fold or on top of the sliding loops with the snap-button toward the inside.

6

Inserting the lens

Only lenses with control cam for Leica R cameras may be attached to the Leica R 4s, otherwise damage to the camera will result.

Independently of the distance and aperture setting the LEICA R lenses are exchanged as follows:

Grip the lens by the fixed ring (22). Make the red dot (20) on the lens mount face the bayonet lock (18) on the camera body. Insert the lens in this position. After a slight clockwise turn the lens clicks into position.

Removing the lens

Grip the lens by the fixed ring (22). Depress the bayonet lock (18) on the camera. Turn the lens anticlockwise and remove it.

With the camera loaded change lenses in the shadow of your body, since light may enter through the shutter when openly exposed to direct sunlight.
