Sarkees,2015-10-22 This title describes how civil war is defined and categorized and presents data and descriptions for nearly 300 civil wars waged from 1816 to the present Analyzing trends over time and regions this work is the definitive source for understanding the phenomenon of civil war The South China Sea C. J. Jenner,Tran Truong Thuy,2016-09-01 The history of the South China Sea is a catalyst of international cooperation and conflict Security in the Indo Asia Pacific is largely governed by command of these strategic waters More than half of global shipping transits the South China Sea which also holds significant reserves of oil gas and minerals as well as some of the largest fisheries in the world Drawing on a team of field leading researchers Jenner and Thuy provide an empirical study of the global ocean s most contested sea space The volume s four parts offer an insightful analysis of the significance of the South China Sea to the international order sub national agents of influence on relations between states the disputes over sovereignty through the analytical prism of international law and the conflictful region s prospects The primary source based conclusion elucidates the agency of history and strategy in the South China Sea The Power Triangle Hazem Kandil,2016 Iran Egypt and Turkey all experienced remarkably similar coup installed regimes in the middle of the twentieth century and shared comparable state building ambitions Despite these similarities each followed a different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt metamorphosed into a police state What accounts for this divergence In The Power Triangle Hazem Kandil attributes the different outcomes to the power struggle between the political military and security components of each regime Following a coup officers immediately divide their labor one group runs government another supervises the military and the third handles security Their interests initially overlap but begin to vary as each group becomes identified with its own institution The politicians wish to remain in power indefinitely but need the support of the custodians of violence military officers prefer to withdraw from politics after implementing the needed reforms since their prerogatives are usually guaranteed regardless of regime type and politicization corrupts the corps and security men strive to consolidate authoritarianism in order to maintain the inflated privileges they have acquired during the emergency period following the coup Driven by conflicting agendas the three partners struggle to control the regime Through comparative historical analysis Kandil demonstrates that the new regime is shaped and reshaped through the recurrent clashes and changing alliances between the team of rivals in this power triangle Bringing realism into domestic politics The Power Triangle demonstrates that we cannot gain a clear understanding of pivotal events in Iran Egypt and Turkey without a firm grasp of the balance of power within the ruling bloc of each country **Military Modernisation in Southeast Asia after the Cold War** Shang-Su Wu,2024-04-01 Southeast Asian countries represent a wide range of approaches to military modernisation due to their great diversity in politics economies geography and other factors Bounded by the Pacific and Indian Oceans and located between China and India is the setting for the geostrategic impacts of military modernisation in Southeast Asian countries Differing from previous research focused on military acquisition this book

additionally covers retention of assets and carefully examines the ageing issues that affect readiness and capabilities. In doing so it provides a comprehensive view of military modernisation. This book also compares each country's situation in the region in terms of military strength and security challenges to elaborate on the geostrategic impacts of military modernisation. The Evolving Military Balance in the Korean Peninsula and Northeast Asia Anthony H. Cordesman, Ashley Hess, 2013-07-10. The Evolving Military Balance in the Korean Peninsula and Northeast Asia describes the strategy, force deployments and the military balance in potential current and future scenarios involving the Democratic People's Republic of Korea, Republic of Korea, People's Republic of China, Japan and the United States. The analysis in these volumes shows how tensions between the Koreas and the potential involvement of the China, Japan, Russia and the United States create a nearly open ended spectrum of possible conflicts. These range from posturing and threats, wars of intimidation to a major conventional conflict on the Korean Peninsula to intervention by outside powers like the United States and China to the extreme of nuclear conflict. The analysis shows that the Korean balance is sharply affected by the uncertain mix of cooperation and competition between the United States and China. The U.S. rebalancing of its forces to Asia and the steady modernization of Chinese forces, in particular the growth of Chinese sea air missile capabilities affect the balance in the Koreas and Northeast Asia. They also raise the possibility of far more intense conflicts that could extend far beyond the boundaries of the Koreas.

Australia's Defence Peter Dean, Brendan Taylor, Stephan Frühling, 2014-07-18 Almost half a century ago the Australian National University's TB Millar penned a seminal book on Australian defence policy in the lead up to the Vietnam War Today Australia's defence forces are returning from long conflicts overseas while the rise of China and the economic integration in the Indo Pacific presents a complex mix of

challenges and opportunities Drawing inspiration from Millar s original volume Australia s Defence Towards a New Era brings together leading experts to examine the domestic and international context of Australia s defence policy Australian strategy and the size and state of our armed forces As the country heads towards a new era this book provides an in depth overview and key insights into the past present and future of Australia s defence Breaking Point Michael O. Slobodchikoff,2024-11-25 The post Cold War order established by the United States of America is currently at a crossroads No longer is the liberal order and United States hegemonic power a given Moscow and Beijing have both begun their challenges to the United States While long dissatisfied with US hegemony in February 2022 Russian President Vladimir Putin ordered the invasion of Ukraine by the Russian military The response by the United States and its allies was swift and unprecedented Wave after wave of sanctions were levied against Moscow and NATO member states began to provide military support to Kyiv in trying to maintain its independence from Moscow The first major war on the European continent since World War II was to have a profound global effect on relations with other countries First there was a significant demographic impact as migrants left Ukraine either to the West or to Russia Further as men were prevented from leaving Ukraine due to mandatory conscription the refugees were overwhelmingly made up of either old people or women with children Russia also was not spared from a huge demographic crisis Not only has it lost an enormous amount of young men to the war but it also instituted forced conscription leading to many men fleeing the country Initially Washington described the invasion of Ukraine as a war between democracy and autocracy with Kyiv being on the front lines of this new war However the real situation was much more complicated than a simple framing of the conflict While Kyiv enjoyed overwhelming support from the United States and its NATO allies other democracies globally were a lot warier of supporting Ukraine Countries like India Turkey Hungary South Africa Brazil and other democracies began a strategy of hedging Publicly they urged caution in the conflict stating that while Moscow possessed legitimate security concerns that the conflict had to be resolved peacefully The hedging strategy employed by much of the world confused Washington however the United States found its attention torn between two continents The war in Ukraine was its main concern however a newly resurgent China threatened to begin its own war against Taiwan Washington could ill afford a diplomatic blitz to force hedging states to support its policies in Kyiv Moscow on the other hand recognized that it stood to gain from Washington s focus It began to bolster its diplomatic efforts to woo those hedging countries into not aligning with the United States Further the alliance between Moscow and Beijing deepened during this period In other words a period of tremendous uncertainty about the future of the global order was born In this book we examine the aftermath of Moscow s invasion and its implications on the global order In this edited volume we first examine the regional effects of the invasion We then examine Moscow s relations with other states globally and argue that while it is not possible to predict who will win the war in Ukraine that the war has had a profound impact on both Russia s relations with the world as well as on the United States global relations **The Role of the Military in the Arab**

Uprisings Ali Sarihan, 2023-05-11 Focused on the 2010 2011 Arab Uprisings this book examines the role of the military in Tunisia and Libya arguing that both armies contributed decisively to the outcome and form of the respective uprisings The book begins by contextualizing the uprisings with both countries plagued by anti democratic politics and unequal social and economic structures in the 2000s Alongside this the book explores the key actors and factors leading up to during and after the uprisings Employing a comparative case study methodology and drawing from approaches in rational choice theory and institutionalism the author argues that the tripartite configuration of energy capacity military structure and strength of protest led to dichotomous outcomes in the countries Tunisia where the military defected was marked by a lack of energy wealth apolitical military structure and high level of protest enabling a nonviolent transfer of power In contrast in Libya where parts of the military remained loyal to Gaddafi s regime protests evolved into violent civil conflict Making use of expert and elite interviews obtained from fieldwork in Tunisia as well as data from the research field the book will appeal to specialists and students interested in international politics military and security studies and the MENA region **Routledge**

Posen,2014-06-03 The United States Barry R Posen argues in Restraint has grown incapable of moderating its ambitions in international politics Since the collapse of Soviet power it has pursued a grand strategy that he calls liberal hegemony one that Posen sees as unnecessary counterproductive costly and wasteful Written for policymakers and observers alike Restraint explains precisely why this grand strategy works poorly and then provides a carefully designed alternative grand strategy and an associated military strategy and force structure In contrast to the failures and unexpected problems that have stemmed from America s consistent overreaching Posen makes an urgent argument for restraint in the future use of U S military strength After setting out the political implications of restraint as a guiding principle Posen sketches the appropriate military forces and posture that would support such a strategy He works with a deliberately constrained notion of grand strategy and even more important of national security which he defines as including sovereignty territorial integrity power position and safety His alternative for military strategy which Posen calls command of the commons focuses on protecting U S global access through naval air and space power while freeing the United States from most of the relationships that require the permanent stationing of U S forces overseas
