**15-Minute Movie Method** Wallace Evan Wang, 2013-11 If you've always wanted to write a screenplay or a novel you may be wondering What makes a great story It's not just interesting characters memorable dialogue or explosive action scenes What makes a great screenplay or novel is a great story Every great story from classic novels and stage plays to today's modern films follow the same basic proven story structure that alternates between contrasting problems and solutions to maintain and maximize suspense In the traditional three Act structure a story looks like this Act I Exposition Act II Rising Action Act III Climax Act I and Act III are roughly the same length corresponding to a 30 minute length in a 120 minute screenplay but Act II is typically twice as long as either Act I or Act III The result is that the traditional three Act structure sets you up for failure by forcing you to write a huge chunk of your story without any guidelines whatsoever In contrast a four Act structure makes each Act manageable while also providing the necessary contrast to create a compelling story Stories are interesting and suspenseful because they alternate between problems facing the hero followed by solutions that the hero achieves In the four Act structure a story looks like this Act I Exposition Act IIa Positive Rising Action Act IIb Negative Rising Action Act III Climax Another way to look at this four part story structure is as follows Act I Problem facing the hero Act IIa Hero solves the problem and appears to achieve success Act IIb New problems occur Act III Hero finally solves the problem Let's look at how this four part story structure works in Star Wars Act I Problem Luke is stuck in a dead end life on his uncle's farm Act IIa Solution Luke leaves with Obi-wan to deliver the stolen Death Star plans Act IIb Problem Luke gets trapped on the Death Star Act III Solution Luke blows up the Death Star The four Act structure clearly lets you tell a story with alternating

problems and solutions which is how you generate suspense to keep an audience glued to the edge of their seats Notice that with Act IIa the action continues to rise but in a positive direction Yet in Act IIb the action also continues to rise but in a negative direction This subtle difference is what the typical three Act structure fails to identify which is why the three Act structure so easily misleads writers to create less than compelling stories Once you understand how this four part story structure works you can use it as a guide to help shape your story into a well crafted screenplay The 15 Minute Movie Method isn't a formula for writing a story but a set of guidelines that you can test for yourself with your own favorite movies By following The 15 Minute Movie Method guidelines you can learn how to structure your screenplay to tell a compelling intriguing story with any idea You'll learn the four basic parts of any story how to divide your screenplay into eight 15 minute segments that each tell a mini story what type of information each story segment needs to show the audience how the beginning and end of your story is related how to create the toughest villain for your particular hero who the most important character of your story really is Hint it's not your hero and much more with specific exercises that anyone can follow whether you're a novice trying to write a first screenplay or a veteran screenwriter who needs to fix a problem with an existing screenplay By taking you step by step through the process of turning a good idea into a well structured story The 15 Minute Movie Method can show you how to write a screenplay with less hassle frustration and confusion so you can spend more time actually writing and enjoying the process of creating the story that you want to share with the world Cool Million Sheldon Woodbury, 2003 Here's your chance to learn Hollywood screenwriting from writers who've made the big bucks In Cool Million Sheldon Woodbury asks eleven seasoned veterans to recount their experiences of studio woe and blockbuster success These interviews combine with his own insights built from years of teaching dramatic writing at New York University to make this book an indispensable tool for your million dollar dreams BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *How to Write a Movie in 21 Days* Viki King, 2015-03-03 In this classic bestselling screenwriting guide now revised and updated author and film consultant Viki King helps screenwriters go from blank page to completed manuscript through a series of clever and simple questions ingenious writing exercises and easy effective new skills Viki King's Inner Movie Method is a specific step by step process designed to get the story in your heart onto the page This method doesn't just show how to craft a classic three act story but also delves into how to clarify the idea you don't quite have yet how to tell if your idea is really a movie and how to stop getting ready and start Once you know what to write the Inner Movie Method will show you how to write it This ultimate scriptwriting survival guide also addresses common issues such as how to pay the rent while paying your dues what to say to your partner when you can't come to bed and how to keep going when you think you can't *How to Write a Movie in 21 Days* first published in 1987 has been translated in many languages around the world and has become an industry standard guide for filmmakers both in Hollywood and internationally For accomplished screenwriters honing their craft as well as those who have never before brought their ideas

we write movie scripts isn't I have not separated the conversation about writing from the discussion about the tools That's because the two things are connected We need tools like this because writing cinematic drama is complicated It's not possible to separate the process from the challenges of screenwriting Process driven screenwriting is very simple Anyone can learn the basic steps in a short period of time However as with any tools it takes time and practice to master their use These tools can be used to create simple stories or to craft complex narratives So what are these tools What are the steps raw idea our initial inspiration or ideatheme decide what facet of human experience we're exploringcompass logline decide who the film is about when and where it is setchase our fascination to create the world of story creating a fictional worldcharacter development populate the world with characterscreate a plot decide what happens and the order in which the audience finds things outwrite the script write cinematic drama in a form that is acceptable to the production teamIn reality everyone is a process driven screenwriter whether they know it or not Every writer has a process even if that process is to stare at a blank page until they have an idea Every writer's process is unique to them We do what works best for us Writers with great processes write great screenplays In this book we will look at ways any writer can improve their process without giving up the things that make them unique

**The Rules of Screenwriting and Why You Should Break Them** Bill Mesce, Jr., 2017-06-06 A couple of generations ago the movie industry ran on gut instinct film schools audience research departments and seminars on screenwriting were not yet de rigueur Today the standard is the analytical approach intended to demystify filmmaking and guarantee success or at least minimize failure The trouble with this method is that nobody knows how to do it they just think they do and films are made based on models of predictability rather than the merits of the script This insider's look at the craft and business of screenwriting explodes some of the popular myths demonstrating how

little relevance the rules have to actual filmmaking With long experience in film and television the author provides insightful how not to analyses with commentary by such veterans as Josh Sapan CEO of AMC Networks bestselling author Adriana Trigiani and Oscar nominated screenwriter Nicholas Pileggi Goodfellas      **The Nutshell Technique** Jill Chamberlain,2016-03-01 Veteran script consultant Jill Chamberlain discovered in her work that an astounding 99 percent of first time screenwriters don t know how to tell a story These writers may know how to format a script write snappy dialogue and set a scene They may have interesting characters and perhaps some clever plot devices But invariably while they may have the kernel of a good idea for a screenplay they fail to tell a story What the 99 percent do instead is present a situation In order to explain the difference Chamberlain created the Nutshell Technique a method whereby writers identify eight dynamic interconnected elements that are required to successfully tell a story Now for the first time Chamberlain presents her unique method in book form with The Nutshell Technique Crack the Secret of Successful Screenwriting Using easy to follow diagrams nutshells she thoroughly explains how the Nutshell Technique can make or break a film script Chamberlain takes readers step by step through thirty classic and contemporary movies showing how such dissimilar screenplays as Casablanca Chinatown Pulp Fiction The Usual Suspects Little Miss Sunshine Juno Silver Linings Playbook and Argo all have the same system working behind the scenes and she teaches readers exactly how to apply these principles to their own screenwriting Learn the Nutshell Technique and you ll discover how to turn a mere situation into a truly compelling screenplay story
