The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005* Mahmood Mamdani,2007 *Scholars in the Marketplace* is a case study of market based reforms at Uganda s Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes **The Manners and Customs of the Modern Egyptians** Edward William Lane,1923 **Handbook of Research on Records and Information Management Strategies for Enhanced Knowledge Coordination** Chisita, Collence Takaingenhamo,Enakrire, Rexwhite Tega,Durodolu, Oluwole Olumide,Tsabedze, Vusi Wonderboy,Ngoaketsi, Joseph M.,2021-01-15 The convergence of technologies and emergence of interdisciplinary and transdisciplinary modus of knowledge production justify the need for research that explores the disinterestedness or interconnectivity of the information science disciplines The quantum leap in knowledge production increasing demand for information and knowledge changing information needs information governance and proliferation of digital technologies in the era of ubiquitous digital technologies justify research that employs a holistic approach in x raying the challenges of managing information in an increasingly knowledge and technology driven dispensation The changing nature of knowledge production for sustainable development along with trends and theory for enhanced knowledge coordination deserve focus in current times The Handbook of Research on Records and Information Management Strategies for Enhanced Knowledge Coordination draws input from experts involved in records management information science library science memory and digital technology creating a vanguard compendium of novel trends and praxis While highlighting a vast array of topics under the scope of library science information science knowledge transfer records management and more this book is ideally designed for

Enhancing Innovation in the Ugandan Agri-Food Sector: Robusta Coffee Planting Material & Tropical Fruit Processing
World Intellectual Property Organization,Travis J. Lybbert,Gracious Diiro,Dick Kawooya,Sacha Wunsch-Vincent,2017 Uganda
s innovation performance in recent years has consistently outpaced other low income and Sub Saharan African countries
Though encouraging this nascent progress will only benefit the broader Ugandan population if policy makers address specific constraints in the innovation systems of the critical agri food sector which is hampered by low productivity and profitability
In this report we explore these constraints using an agricultural value chains framework with particular focus on the Robusta Coffee Planting Material Pipeline and tropical fruit processing **The Manners & Customs of the Modern Egyptians =**
