Me, Me, Me Jon Lawrence, 2019-09-01 Many commentators tell us that in today s world everyday life has become selfish and atomised that individuals live only to consume But are they wrong In Me Me Me Jon Lawrence re tells the story of England since the Second World War through the eyes of ordinary people including his own parents to argue that in fact friendship family and

place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us Me Me Me makes that case that it s time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past **The Welfare State**

Generation Eve Worth,2021-12-16 Women born in mid twentieth century Britain were the welfare state generation not only were their lives fundamentally shaped by the welfare state they helped to transform it In this ground breaking work Eve Worth examines the impact of the welfare state on the life course of women whose opportunities and social experiences were formed by it in the post 1945 period Centred around an oral history study this book argues that the welfare state was so central to the lives of women born in Britain between the late 1930s and early 1950s that they should be considered the welfare state generation The post war expansion of the welfare state was one of the most transformative political changes of the twentieth century yet we know little about its development in practice nor its long term impact on those who grew up within it Using a ground breaking life history methodology to examine women from their birth in the long 1940s to retirement in the mid 2010s it includes thirty six original life history interviews alongside social surveys and the Census for wider context By deploying a cross class approach this book moves the discussion on from just looking at university educated women to include women often overlooked in gender and social studies Re conceptualising the causes of social mobility in post war Britain exploring a new understanding of work and an updated periodisation of welfare state development The Welfare State Generation offers a new approach to the history of class and gender arguing that we need to move beyond the focus on women s emotions and personal identity to consider their experiences and relationships with the state as employer educator and provider

Married Women Working Pearl Jephcott,2023-04-25 In the 1950s heated views were sometimes expressed about the alleged social results of married women going out to work Originally published in 1962 *Married Women Working* attempts to examine the question objectively It is based on two studies undertaken over a period of nearly five years in a solidly working class London district one a detailed study in the factory of a well known firm of biscuit makers Peek Freans relying mainly on married women workers the other a more general one in the surrounding borough as a whole How effective was the married woman as an employee How did the firm cope with their new type of labour and with what results What was the effect on the woman herself and on her family of her attempt to fill the dual role of home maker and paid worker These are some of the questions examined in this book which also gives a very fascinating picture of how people lived

at the time against the background of earlier generations **Love, Loyalty and Deceit** Hugh Firth, Loulou Brown, 2023-09-15 How much do we really know about our parents' lives? What secrets lie in plain sight? This is the true story of hidden love within a small circle of some of the most acclaimed anthropologists of the 20th century. Told by Rosemary and Raymond Firth's son and the daughter of Celia and Edmund Leach, the man Rosemary loved all her life, this part-love story, part biography, part social history is the tale of a highly influential circle of social anthropologists in Britain from the 1930s through the Second World War to the end of the century. The book explores their early influences, their insecurities, their flaws, struggles, and achievements. It is a story of passion and commitment but also of deceit and betrayal, including the inexplicable disappearance, death, and alleged murder of a very close friend. It also narrates Rosemary's struggles for emotional and intellectual independence in the face of societal expectations of women and her own guilt, loss, and self-doubt. From the Prologue, Rosemary loved many people in many different ways, but she loved two men in particular throughout most of her life. One was her husband, Raymond Firth, regarded by some as among the founding fathers of social anthropology. Yet she also retained a passionate devotion to her first love, Edmund Leach, who would subsequently become the public intellectual face of social anthropology in the later 1960s. Both separately and together, they were part of the process of defining the nature of this still-growing discipline in the first part of the mid-twentieth century.

All Our Welfare Peter Beresford, 2016-01-29 The UK welfare state is under sustained ideological and political attack. It has also been undermined by accusations of paternalism and past failures to engage with the very people it is intended to help. This unique book is the first to critique the past, present, and future welfare state from a participatory perspective. Peter Beresford, champion of user involvement, draws on pioneering theories and practice of welfare service user movements to offer a blueprint for a new participatory social policy. He controversially challenges orthodox social policy and the limitations of both Fabian and Neo-liberal perspectives in engaging people to improve their own welfare, drawing on service users' own ideas and experience, including fascinating vignettes from his own family's experience, to demonstrate the value of user knowledge. Filling a much-needed gap in the literature, this accessible text will provide a great introduction for students and a road map for practitioners of an alternative vision for a future participatory and sustainable social policy. It will also command much wider interest from everyone concerned with how we look after each other in the future in society.

Women at Work in Twenty-First-Century European Cinema Barbara Mennel, 2019-01-30 From hairdressers and caregivers to reproductive workers and power-suited executives, images of women's labor have powered a fascinating new movement within twenty-first-century European cinema. Social realist dramas capture precarious working conditions; comedies exaggerate the habits of the global managerial class. Stories from countries battered by the global financial crisis emphasize the patriarchal family debt and unemployment. Barbara Mennel delves into the ways these films about female labor capture the tension between feminist advances and their appropriation by capitalism in a time of ongoing transformation. Looking at independent and genre films

from a cross section of European nations Mennel sees a focus on economics and work adapted to the continent's varied kinds of capitalism and influenced by concepts in second wave feminism More than ever narratives of work put female characters front and center and female directors behind the camera Yet her analysis shows that each film remains a complex mix of progressive and retrogressive dynamics as it addresses the changing nature of work in Europe

A Woman in Law Celia Wells, 2019-09-11 Celia Wells always felt like an outsider Her unconventional early life was shaped by her Communist Party parents she grew up as town not gown in Oxford surrounded by books but living in a council house She has uncovered an intriguing backstory with a bigamous grandmother a convicted forger cousin transported to Australia in the 1840s and the rise and fall of landed gentry The author describes her parents bohemian friends and their coded language and uses their original wartime correspondence to produce a picture of a fascinating heritage which ran against the grain and shaped an inquiring mind *A Woman in Law* shows how the post war political landscape provided opportunities for women yet failed to shift many entrenched advantages of gender and class Tracing the rocky path to becoming Cardiff University's first female law professor the author shows how her distinctive academic research led to different approaches to teaching criminal law as well as contributing to key reforms described in the book As she asserts I wanted to write about my rather confused political and cultural background and to relate it to my professional and personal life to my academic writing to my relationships and my beliefs my experiences of suicide and addiction in my close family A frank and revealing account which distils the essence of women's career challenges and highlights the issues women continue to face Review Beautifully written and searingly honest a rare resource emotionally articulate and deeply considered Nicola Lacey

Making Respectable Women Mary Evans, 2020-12-16 This book studies the ways in which the assessment of being or not being respectable has been applied to women in the UK in the past one hundred and fifty years Mary Evans shows how the term respectable has changed and how most importantly the basis of the ways in which the respectability of women has been judged has shifted from a location in women's personal domestic and sexual behaviour to that of how women engage in contemporary forms of citizenship not the least of which is paid work This shift has important social and political implications that have seldom been explored amongst these are the growing marginalisation of the validation of the traditional care work of women the assumption that paid work is implicitly and inevitably empowering and the complex ways in which respectability and conformity to highly sexualised conventions about female appearance have been normalised *Making Respectable Women* makes use of archive material to show how the changing definition of a moral and social concept can have an impact on both the behaviour and the choices of individuals and the operations of institutional power It will be of interest to students and scholars across the humanities and social sciences

Lifestyle revolution Ben Highmore, 2023-02-21 In postwar Britain journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines and where more and more people owned their own homes They were to be proved hopelessly wrong *Lifestyle revolution* charts how class

culture rather than being destroyed by mass consumption was remade from flat pack furniture Mediterranean cuisine and lifestyle magazines Novelists cartoonists and playwrights satirised the tastes of the emerging middle classes while sociologists claimed that an entire population was suffering from status anxiety but underneath it all a new order was being constructed out of duvets quiches and mayonnaise easy chairs from Habitat white emulsion paint and ubiquitous pine kitchen tables More than just a world of symbolic goods this was an intimate environment alive with new feelings and attitudes
