Contemporary Issues in Taxation Research Andy Lymer, 2019-11-12 This book is based upon papers presented at the 10th Annual Conference of the Tax Research Network held at the University of Birmingham United Kingdom in September 2000 The book covers four discrete areas namely compliance e commerce and taxation international taxation and taxation within the European Union and value added tax and focuses within those areas on issues of topical and continuing interest In an introductory chapter the editors provide an overview of the subject matter of each of the substantive chapters of which there are eleven They conclude by seeking to extrapolate from those chapters notwithstanding their diversity various matters

of wider and contemporary import to taxation The treatment of the material in this book by scholars from various academic disciplines and with differing geographical perspectives also gives distinct and instructive insights into widely recognised and enduring taxation problems within the above mentioned subject areas Further an appreciation and understanding of the multi faceted approaches which may be adopted for problem solving and which are evident in this book can only enhance the prospects of the ultimate resolution of these problems *The Great IRS Hoax, Form #11.302* Family Guardian
