

FEDEX EXPRESS VIRTUAL FLIGHT OPERATIONS MANUAL

Revised September 29, 2017

Introduction

Welcome to FedEx Express Virtual. This document was designed to: provide new members with the information they need to get started right away; and be a reference for the general operations of our organization.

FedEx Express Virtual (FDXVA) was founded by two ardent fans of the real life FedEx: Garen Evans and Mike Tabb. These two friends founded FDXVA in 2015 because they wanted to share their passion for cargo air operations with others. Mike and Garen have many thousands of hours of flight simulation experience, and extensive experience with virtual airline administration, air traffic control, technical development, and web and software management.

At FDXVA we balance realism with a common-sense approach to flight simulation. For example: our route structure mimics our real life counterpart, yet the system is dynamic and often includes charter and ferry flights; our fleet is based on the same aircraft used by the real life FedEx, yet members have the flexibility to choose any of those aircraft for any flight; we have more than one thousand destinations, and a system that allows our members to jumpseat to new points of departure around the globe.

In short, we have coupled FedEx's real life route structure with common sense approach to flight operations. As a result, our members enjoy a number of features that are unique to the virtual aviation community without an overly burdensome set of rules and regulations. We like it this way, and we hope you will too.
