*First Do No Harm* Walter Gratzer, 2017-09-19 The history of medicinal drugs extends back to the earliest human civilizations when the search began for natural materials plant animal or mineral that might possess the power to cure alleviate or avert maladies or wounds The quest continues still conducted now by scientists and doctors in the thousands and in the shadow of big pharma The story abounds with human interest populated as it is with geniuses and charlatans with the inspired and the deluded with self sacrifice and self aggrandizement Medicine over the centuries has been pervaded by false doctrines amounting to superstitions the causes of endless misery and numberless death and there were truths not recognized for decades and longer Finally industry and its profit motive has become an inescapable presence which is sometimes a blessing to some or a curse to others a source sometimes of corruption or sometimes of dazzling progress Which of these predominates it is up to the reader to judge
