The Directory includes over 6,000 courses offered by 154 institutions or distance learning consortium members. Following an introduction that describes existing practices and delivery methods, the Directory offers three indexes: Subject Index of Courses Offered by Level, Course Level Index, Geographic Index. All information was supplied by the institutions. Entries include current contact information, a description of the institution and the courses offered, grade level and admission information, tuition and fee information, enrollment periods, delivery information, equipment requirements, credit and grading information, library services, and accreditation.      **Campus**

**Conversations** Jeffery W. Galle, Denise Pinette Domizi, 2021-11-15 The eight essays in *Campus Conversations* provide some of the best scholarly work emerging from individual faculty learning communities in a statewide program called the Chancellor's Learning Scholar (CLS) program. The CLS program began in 2018 as an initiative designed to include large numbers of the University System of Georgia's (USG) about 12,000 full-time teaching faculty in the USG's statewide student success efforts. The approximately 2,000 faculty who have participated in the first two years of the CLS program learned about the eight pedagogies of student success which can help engage students more deeply, thereby retaining them and deepening their learning. These pedagogies include small teaching based on the Jim Lang book *Inclusive Pedagogy*, Transparency in Learning and Teaching (TiLT), course design, high-impact practices (HIPs), brain-based learning, academic mindset, and the Scholarship of Teaching and Learning (SoTL). As teaching and learning scholarship, each essay has its origin in the topic for which the learning community was formed. The collection demonstrates the range of topics and many of the ways in which USG faculty have explored and applied these pedagogies to their own institutional contexts and courses. The essays selected for inclusion in this volume also embody different responses to the outcomes of the program as set out at the
