African Concord, 1990 Surfaces and Essences Douglas Hofstadter, Emmanuel Sander, 2013-04-23 Shows how analogy-making pervades human thought at all levels, influencing the choice of words and phrases in speech, providing guidance in unfamiliar situations, and giving rise to great acts of imagination. *AF Press Clips*, 1978-07 **His Story** Stuart Hacking, 2014-08-18 We all love stories, whether printed, passed down orally from generation to generation, or made into films. We love stories whether they are fictional, true, mythical, or legendary. Stories are part of our human history, and they help us understand being human. But there is one story that underpins all other stories: the story of why we exist. All great human stories must interact with this story. His Story explores this fundamental story by retelling the story of the Bible. His Story tells the Biblical story of how God has opened up a doorway into our universe and how this impacts the metanarrative of all of our lives. If you want to read the overarching story of the Bible in one short book, then His Story is for you. If you want to know the backstory of your life, His Story is for you. His Story is simply written but doesn't oversimplify. It is a book for people who might call themselves Christians, but also for all those who are curious about the ultimate story. His Story: the story of why we are here. **The Oxford Companion to Twentieth-century Literature in English** Jenny

Stringer, 1996 Survey of twentieth-century English language writers and writing from around the world, celebrating all major genres, with entries on literary movements, periodicals, more than 400 individual works, and articles on approximately 2,400 authors. Religious Remembrancer, 1917 **Ecocritical Explorations in Literary and Cultural Studies** Patrick D.

Murphy, 2009-07-15 In *Ecocritical Explorations*, Patrick D. Murphy explores environmental literature and environmental cultural issues through both theoretical and applied criticism. He engages with the concepts of referentiality, simplicity, the nation-state, and virtual reality in the first section of the book, and then goes on to interrogate these issues in contemporary environmental literature, both American and international. He concludes his argument with a discussion of the larger frames of family dynamics and unnatural disasters, such as hurricanes and global warming, ending with a chapter on the integration

of scholarship and pedagogy in the classroom with reference to his own teaching experiences Murphy's study provides a wide ranging discussion of contemporary literature and cultural phenomena through the lens of ecological literary criticism giving attention to both theoretical issues and applied critiques In particular he looks at popular literary genres such as mystery and science fiction as well as actual disasters and disaster scenarios Ecocritical Explorations in Literary and Cultural Studies is a timely contribution to ecological literary criticism and an insightful look into how we represent our relationship with the environment
