RF-101 Voodoo Units in Combat Peter E. Davies, 2019-03-21 McDonnell s F 101 Voodoo series was in many ways the most interesting of the Century Series fighter programmes of the 1950s partly because the type s design and intended mission changed radically during a 40 year career Originally designed as a fighter bomber it was converted to be a reconnaissance aircraft serving alongside the U 2 and RF 8 Crusaders during the Cuban Missile Crisis and the Vietnam War Although it gained a reputation as a difficult aircraft to handle the jet s supersonic speed and newly developed camera suite enabled it to conduct vital low altitude photo reconnaissance missions over heavily defended target areas In combat the RF 101 was usually first in last out for strike missions This made it a ready target with a solo aircraft flying straight and level to gather target photo evidence at low altitude offering enemy gunners plenty of opportunity to shoot the Voodoo down This study tells the combat stories of this extraordinary aircraft highlighting the difficulty of the missions on which it was sent and the courage of its pilots

The Evolution of the US Air Force Israel Guy, 2024-08-05 This book looks at the history of the US Air Force through the lens of its lack of preparedness for major wars which is shown to be a result of its organizational culture The U S Air Force is probably the most powerful military force in history both in its destructive firepower and in its ability to project it globally Yet despite its unparalleled power the Air Force entered its first three pivotal conflicts World War II the Korean War and the Vietnam War unprepared But surprisingly it was remarkably well prepared for its fourth major war the Gulf War of 1991 Could there be an underlying trait or characteristic

which influenced the Air Force between the wars that historically caused the US Air Force to be unprepared for war or prepared for the wrong type of war Surprisingly there is such a factor which was quite prominent in the Air Force s complex identity its organizational culture Besides providing a historical description of the Air Force this book demonstrates clearly how its organizational culture evolved and how it caused the US Air Force to be prepared for the wrong war It also shows that when the organizational culture changed the Air Force changed its focus and arrived prepared for the following war the 1991 Gulf War This book will be of interest to students of air power strategic studies US public policy and security studies in general

Air War Vietnam Martin W. Bowman, 2025-08-05 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman s revealing narrative of the aerial conflict in South East Asia 1965-1972 which had its beginnings in 1 November 1955 engulfed Vi tnam Laos and Cambodia and only ended with the fall of S i g n on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vi tnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vi tnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vi tnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked So too is the cost in human misery death and destruction

Lockheed F-104 Starfighter Martin W Bowman, 2017-11-30 The F 104 Starfighter is quite possibly one of the most photographed aircraft of all time It is certainly one of the most iconic Here Martin Bowman offers up a well researched comprehensive and thoroughly entertaining history of this impressive interceptor aircraft and fighter bomber Firsthand insights gathered from pilots who have flown the Starfighter in a variety of

international contexts make for a rich and diverse narrative interspersed throughout with a good selection of black and white and color illustrations that really bring the story to life Over the course of an eventful history the Starfighter has been caught up in an extensive variety of conflicts across the world This book not only acquaints us with the landmark milestones of a widely utilized aircraft type it also illuminates our understanding of the dynamic history of aviation in the second half of the twentieth century **The Air Force Blue Book** Tom Compere,1959 [Air Corps News Letter](#) ,1962 **Military Review** ,1958 [Quarterly Review of Military Literature](#) ,1975 *Air Force and Space Digest* ,1958 **F-51 Mustang Units of the Korean War** Warren Thompson,2015-12-20 By the time the Korean War erupted the F 51 Mustang was seen as obsolete but that view quickly changed when the USAF rushed 145 of them to the theatre in late 1950 They had the endurance to attack targets in Korea from bases in Japan where the modern F 86 fighters and other jets did not Rather than the interceptor and escort fighter roles the Mustang had performed during World War 2 in the Korean War they were assigned to ground attack missions striking at communist troop columns advancing south This is the chronicle of the Mustang units that fought in the Korean War detailing the type s involvement in a series of intense actions its successes and its considerable losses Drawing on meticulous research and gripping first hand accounts from aircrew this book explains how the faithful Mustang was able to roll back the years fight and prove itself in a new era of aerial warfare *Air Force Magazine* ,1996-07
