*Full Circle Parenting* Jimmy Scroggins, Kristin Scroggins, 2021-04-20 Parenting isn't for wimps. It's not just the routines, schedules, discipline, and heartaches; it's the hard conversations. One of the greatest challenges of parenting is navigating the crucial conversations that we must have with our kids. Jimmy and Kristin Scroggins have been married for more than twenty-five years and have eight children. Jimmy pastors a church in South Florida. They've had plenty of crucial conversations in their lives, not only with their own children but with parents who are scared and seeking wisdom. They know they have to find a way to have those tough conversations from a biblical perspective and a distinctly Christian worldview, but they don't know how. If you're like these parents, *Full Circle Parenting* was written for you. Using the 3 Circles gospel tool, God's design, brokenness gospel, Jimmy and Kristin will give you a conversation map to work through any tough conversations you have with your children and will show you how it works with the following topics and more: Gender, Sexuality, and Marriage; Technology; Alcohol and Substance Abuse; Bitterness; Forgiveness and Restoration; Friendship; and Mean Kids. **Halliday**

**and Chinese Linguistics: The Full Circle** Zhuanglin Hu, 2024-06-24 This book is a progressive exposition on Halliday's academic thought and its origins by the renowned linguist Hu Zhuanglin, based on 30 years of research. The first part, *Chinese Origin*, introduces readers to the author's gradual understanding that Halliday's academic thought mainly came from Chinese scholars such as Wang Li, Luo Changpei, and Gao Mingkai. In the 1980s, Halliday and his students introduced the theory of Systemic Functional Linguistics into the foreign language and linguistics circles in China, thus Halliday's academic thought returned to where it originated. The second part, *A Discussion of Theories*, mainly addresses the author's experience and further discussions after learning Halliday's theory. The theme of the third part is *Discourse Analysis* and focuses on the greatest difference between Systemic Functional Linguistics and traditional grammar: sentence grammar. Halliday emphasizes that the study of discourse and sentences are only the embodiment of discourse at the next level. The fourth part, *The Study of Chinese*, applies Halliday's linguistic theory to the evolution of the research of the Chinese language in China, which can better explain the theme of return and is of great significance for Chinese scholars' understanding and application of Halliday's academic thought.
