**Human Resource Management in Europe** Chris Brewster, Wolfgang Mayrhofer, Michael Morley, 2004 The essential book for developing and learning about European HR practice [Learning to Industrialize](#) Kenichi Ohno, 2014-04-03 This book proposes a new pragmatic way of approaching economic development which features policy learning based on a comparison of international best policy practices While the important role of government in promoting private sector development is being recognized policy discussion often remains general without details as to what exactly to do and how to avoid common pitfalls This book fills the gap by showing concrete policy contents procedures and organizations adopted in high performing East Asian economies Natural resources and foreign aid and investment can take a country to a certain income level but growth stalls when given advantages are exhausted Economies will be caught in middle income traps if growth impetus is not internally generated Meanwhile countries that have soared to high income introduced mindset policies and institutions that encouraged or even forced accumulation of human capital skills technology and knowledge How this can be done systematically is the main topic of policy learning However government should not randomly adopt what Singapore or Taiwan

did in the past A continued march to prosperity is possible only when policy makers acquire capability to formulate policy suitable for local context after studying a number of international experiences Developing countries wanting to adopt effective industrial strategies but not knowing where to start will benefit greatly by the ideas and hands on examples presented by the author Students of development economics will find a new methodological perspective which can supplement the ongoing industrial policy debate The book also gives an excellent account of national pride and pragmatism exhibited by officials in East Asia who produced remarkable economic growth as well as serious effort by an African country to emulate this miracle The Open Access version of this book available at <http://www.taylorfrancis.com/doi/view/10.4324/9780203085530> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
