## Abstract

Human trafficking has evolved over ages but this vice remains to be fully combated. Historical records inform that slavery was pivotal in establishing various nations where people were trafficked from various countries and sailed to host nations for various exploitative reasons. In the US, slavery was fundamental in shaping the nation as it was a major contributor to the economy. The victims of slavery experience various forms of discrimination and oppression in the hands of the captors or owners.

In the modern world, slavery is common in the form of human trafficking where the purposes are mainly for labor and sexual exploitation. Globally, humans are trafficked from various countries to work in farms as well as serve as prostitutes in the host nations. In the US, human trafficking is prevalent and it exists in various forms. The offenders and the victims possess various characteristics that suit them to be part of the human trafficking business. However, the US has made various efforts and continues to put measures that seek to stop human trafficking

## Introduction

Slavery in the US has been regarded as critical in the formation of this country. It has played a major role in advancing the economy but the victims suffered in return. Modern slavery is apparent in human trafficking where victims are exploited for labor and sexual purposes. In the US, human trafficking embodies the purposes for exploiting illegal migrants in farms as well as in commercial sex industries. Globally, human trafficking involves the transportation of humans from their home country to overseas nations either in pursuit of perceived better living or as a result of forced transportation. This study seeks to investigate what modern-day slavery as well as provide ways in which it has been combated.

## Historical and Modern-Day Slavery

Slavery is well-known that has shaped many nations around the globe. In particular, the US has been well documented in reference to slavery from the early years of America as a nation up to the abolition of slavery in 1865. In the US, the South played a critical role in promoting slavery since the farming of cotton depended on slaves. In particular, the farm owners in this region needed slaves for growing cotton to keep up with the region as the global needs of this crop (Wharton, 2010).

The North was also complicit in slavery since it depended on the cotton grown in the South to manufacture textile to export to other nations (Wharton, 2010). However, slave labor in the US has had a significant change to develop into the slavery that came to be known worldwide.

Forced labor first existed as contracted servitude where the employers would contract this labor for a period of years and the labors were regarded as property to the extent of being passed down to the next generations in form of will (Wharton, 2010). This type of forced labor was transformed into slave labor from which

Human Trafficking Natividad Gutiérrez Chong, Jenny B Clark, 2017-09-13 In the post Cold War era economic globalization has resulted in the buying and selling of human beings Poverty social instability lawlessness gender biases and ethnic hostility have entrapped millions in the world of modern day slavery with the result that human trafficking is one of the fastest growing criminal industries in the world Every year men women and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation Despite the plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon Although groups from many different ideologies have embraced policies to end human trafficking there are still many gaps and unanswered questions particularly with regard to the amount of and nature of the phenomenon This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor and how vulnerability is a growing cause of human trafficking affecting traditional diasporic and migratory patterns This book was originally published as a special issue of the Journal of Intercultural Studies

 Human Trafficking A Comprehensive Exploration into Modern Day Slavery examines the legal socio cultural historical and  
 political aspects of human trafficking and modern day slavery While most texts only cover sex trafficking and labor trafficking  
 this text takes a more inclusive approach provide coverage of what is currently known about organ trafficking child marriage  
 and child soldiers as well These topics are explored within the borders of the United States as well as across the world The  
 reality is that this problem is not limited to one country or even one continent Technology and globalization have made this  
 an international crisis that requires a collaborative and cooperative international response The goal of this text is to provide

**Human Trafficking** Sasha Jespersen, Rune Henriksen, Anne-Marie Barry, Michael Jones, 2019-11-01 Human trafficking brings to mind gangsters forcing people often women and girls to engage in dangerous activities against their will under threat of violence However human trafficking is not limited to the sex trade and this picture is inadequate It occurs in many different industries domestic service construction factory labour on farms and fishing boats and targets people from all over the globe Human trafficking is a much more complicated and nuanced picture than its common representations Victims move through multiple categories along their journey and at their destination shifting from smuggled migrant to trafficking victim and back again several times The emergence of a criminal pyramid scheme also makes many victims complicit in their own exploitation Finally the threat posed by the involvement of organised crime is little understood The profit motives and violence that come with such crime make human trafficking more dangerous for its victims and difficult to detect or address Drawing on field research in source transit and destination countries the authors analyse trafficking from four countries Albania Eritrea Nigeria and Vietnam What emerges is a business model that evolves in response to changes in legislation governance and law enforcement capacities      Parliamentary Assembly, Working Papers BERNAN ASSOC, 2008-06-30
